The Honorable Terry E. Branstad
Governor of Iowa
State Capitol Building
LOCAL

Dear Governor Branstad:

I am pleased to transmit to you the Iowa Uniform Crime Reports, 1984 Annual Release. The report contains statistical information on criminal offenses reported to Iowa's law enforcement agencies, and on related matters. It continues a series of reports begun in 1976.

The report is based upon information provided to this Department by Iowa's local law enforcement agencies through the Iowa Uniform Crime Reporting System. As such, it is very much a cooperative effort between state and local agencies.

Very truly yours,

Gene W. Shepard

Gene W. Shepard
Commissioner

PREFACE

This report continues a series which started with the publication of the annual Iowa crime report for 1976 by the Iowa Department of Public Safety. It contains data for 1984 and is the culmination of combined efforts of the Research and Development Bureau, the Field Services Bureau, and the Data Services Bureau of the Iowa Department of Public Safety, and especially of of Iowa's local law enforcement agencies. All of the state's 99 county sherriffs' offices, 121 municipal police departments, and the security departments of the three state universities contribute to the Iowa Uniform Crime Reporting System as direct reporting agencies. Additionally, all other local enforcement agencies report through their respective county sherriffs' offices.

The Iowa Department of Public Safety gratefully acknowledges the participation of the state's local law enforcement agencies in the Iowa Uniform Crime Reporting System, for they are clearly the lifeline of that system. Every direct reporting agency in Iowa has transmitted the required information to the Field Services Bureau of this Department for every month since 1977. This is a record matched in few, if any, other states. The Field Services Bureau and the Data Services Bureau are responsible for maintaining and updating the crime reporting system.

Preparation and publication of this report and others containing reported crime information for Iowa are the responsibility of the Department's Research and Development Bureau.

EXECUTIVE SUMMARY

A review of reported crime figures for Iowa for 1984 shows that some index offenses declined in volume while others increased. The Crime Index was down 2.9 percent from 1983. Three of the seven index offenses showed increases during 1984: rape, aggravated assault, and motor vehicle theft. The other four index offenses (murder, robbery, burglary, and larceny) decreased in frequency between 1983 and 1984. Reported violent index crime (murder, rape, robbery, and aggravated assault) rose 9.9 percent while reported property index crime (burglary, larceny, and motor vehicle theft) decreased 3.5 percent. Arson, which is not included in the crime index, also increased.

More specifically, aggravated assault and arson had the largest percentage increases during 1984. There were 16.4 percent more assaults in 1984 than in 1983, while arson increased by 29.2 percent. Reported rapes rose by almost 3 percent from 1983 to 1984. Motor vehicle theft increased 0.5 percent.

A decline of 13 percent occurred in reported murders from 1983 to 1984. Robberies declined by 6.5 percent, burglaries by 4.7 percent, and larcenies by 3.3 percent.

INTRODUCTION

Background

In 1974, the 65th Iowa General Assembly enacted into law Chapter 749B of the Iowa Code requiring law enforcement agencies to submit reports of crime and arrests to the Bureau of Criminal Investigation. The following is a reprint of a portion of this law (now Section 692.15 of the Code) concerning Uniform Crime Reports.

> When it comes to the attention of a sheriff, police department or other law enforcement agency that a public offense has been committed in its jurisdiction, it shall be the duty of the law enforcement agency to report information concerning such crimes to the bureau on a form to be furnished by the bureau not more than thirty-five days from the time the crime first comes to the attention of such law enforcement agency. These reports shall be used to generate crime statistics. The bureau shall submit statistics to the governor, legislature, and crime commission on a quarterly and yearly basis.

During December 1974, the Iowa Bureau of Criminal Investigation, assisted by the Federal Bureau of Investigation, conducted schools throughout the State in the proper completion of Uniform Crime Reports. The schools were attended by most of the law enforcement agencies that were to contribute Uniform Crime reports. On January 1, 1975, the Iowa Uniform Crime Reporting program was implemented, with forms being sent to 210 agencies. Forms provided by the Federal Bureau of Investigation were used in implementing this program since most contributing agencies had previously submitted these forms to the FBI. Monthly reports were received from 209 agencies throughout 1975 and 1976. In 1977, the number of agencies submitting reports grew to 220, which remained the case in 1978. In 1979, the number of reporting agencies rose to 223, and in 1980, to 225. The number of reporting agencies was reduced to 223 in 1981. All reporting agencies have submitted data for every month since 1977.

In 1977 the responsibility for Uniform Crime Reports was transferred from the Bureau of Criminal Investigation to the Department of Public Safety's Administrative Services Division (which maintains UCR field personnel, receives raw data from contributing agencies, and performs computer analysis of data) and the Research and Development Bureau (which further analyzes data, prepares the quarterly and annual reports, and responds to information requests). Questions concerning this report or addressing the topic of crime in Iowa should be addressed to the latter. The Department of Public Safety welcomes comments and suggestions regarding this report.

Method of Reporting

Iowa sheriffs' offices and police departments each month report the offenses, arrests, and clearances known to them within their jurisdictions. Crimes handled by State and Federal agencies are reported by the local jurisdictions in which the crimes have occured. County sheriffs report activity occurring outside the jurisdictions of direct contributing police departments. With few exceptions, those police departments which contribute directly are in communities having populations of 2,500 or greater. The number of direct reporting agencies in each category are as follows:

Number of Reporting Agencies by Type, 1984

Agency	Number
Sheriff's Offices	99
Police Departments	121
Regents' Universities	3
Total Direct Reporting Agenices	223

Offense Classifications

The Iowa Department of Public Safety forwards Iowa crime figures to the Federal Bureau of Investigation for development of nationwide statistics. Because the national program receives reports from law enforcement agencies throughout the nation, uniformity of classification and reporting procedures is necessary to overcome variations in the definitions of criminal offenses among states. For this reason, UCR definitions do not conform to the definitions set forth in the Code of Iowa. It should be noted that the Iowa Uniform Crime Reporting System does provide for the collection of more detailed information in certain areas of particular interest to Iowa, particulary farm-related theft, than is true of the national system.

Information contained in the Uniform Crime Reports is divided between Part I and Part II Crimes. Part I Crimes are generally those offenses that are considered most serious in nature, occur with greatest regularity, and are most frequently reported to law enforcement agencies. These crimes make up a "crime index," the bellwether of crime trends. The Crime Index includes all Part I crimes reported to law enforcement agencies, not the actual number of offenses occuring, nor the number of arrests being made. Also, arson is not included in the index. For the purpose of analysis, Part I Crimes are divided into violent and property crimes:[1]

Violent Crimes

Murder - the willful, non-negligent killing of one human being by another.

Forcible Rape - the carnal knowledge or attempted carnal knowledge of a female forcibly against her will.

Robbery - the taking or attempting to take anything of value from the care, custody or control of a person or persons by violence or by putting the victim in fear.

Aggravated Assault - an unlawful attack or attempt by one person upon another for the purpose of inflicting severe or aggravated bodily injury.

---

[1] These are also frequently called "crimes against persons" and "crimes against property", respectively. Further explanation of crime categories and scoring of offenses can be obtained in UCR publications of the Federal Bureau of Investigation and the Iowa Supplement to those materials produced by the Data Services Bureau of the Iowa Department of Public Safety.

Property Crimes

Burglary - Breaking or Entering - the unlawful entry or attempted entry of a structure to commit a felony or a larceny.

Larceny (except motor vehicle thefts) - the unlawful taking of property from the possession or constructive possession of another.

Motor Vehicle Theft - the theft or attempted theft of a motor vehicle. Farm equipment, construction equipment, boats, and airplanes are specifically exlucded from this category and are included under larceny.

Arson - the willful or malicious destruction or attempted destruction of property by fire.

In 1979, Congress mandated that arson become the eighth index offense, thus making arson a Part I crime instead of a Part II crime. To include arson in Iowa's crime index, however, would invalidate the comparison of index crime before and after 1980, when regular reporting of arson began. Therefore, figures for index crime in Iowa include murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft, but not arson. Reported arson offenses are compiled separately from the index (See Table 10). In order to maintain comparability with prior years, arson arrests continue to be included in the Part II category.

Part II crimes are all those not included in the Part I category. Part II crimes include offenses such as simple assault, vandalism, prostitution and offenses against the family and children. There is no "index" for Part II crimes which are reported to law enforcement agencies in the UCR system. Arrests for Part II crimes are included, however, in the UCR system, as are Part I offenses. The narrative portion of this report concentrates on reported Part I crimes.

Organization and Methodology of 1984 Report

Part I of this report contains information on trends in reported crime in Iowa since 1979 and analyses of statewide patterns of reported Part I offenses during 1984. Each of the eight index offenses (murder, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson) is depicted in this report by two trend charts. One chart shows the annual volume of an offense between 1979 and 1984. A second chart depicts the annual rate for each offense for the same period. Rates based on offenses reported per 100,000 estimated population can be more reliable trend indicators since population shifts are considered. The 1984 population of Iowa and its reporting jurisdictions are based on U.S. Bureau of the Census estimates provided by the FBI to the Iowa Department of Public Safety early in 1985.

Part II of this report is a reproduction of a computer printout produced by the Data Services Bureau of the Iowa Department of Public Safety. This section contains compilations of raw data, in tabular form, which has been transmitted to the Iowa Uniform Crime Reporting System by local law enforcement agencies during 1984.

The 223 contributing agencies submit monthly crime reports to the Department of Public Safety usually within ten days of the end of the month. In instances in which incomplete or erroneous reports are received, corrected reports are normally submitted within one additional month. The Field Services Bureau monitors agency submissions and has exerted considerable effort to achieve 100 percent reporting in every year since 1976.

Since the bulk of the report is made up of tables and charts, considerable effort has been made to make these presentations understandable, logical in format, and useful to local law enforcement officials and other interested parties. Comments regarding the utility of these presentations are welcome.

Due to rounding, not all percentage totals add up to 100 percent in each figure. In addition, most offense rates have been rounded to the nearest tenth.

To assist understanding of some of the tables shown here, the following definitions are presented:

Metropolitan Statistical Areas (MSAs) - areas including a core city (or urbanized area) of at least 50,000 population, and frequently consisting of additional smaller surrounding jurisdictions with a total population of at least 100,000. Johnson County with Iowa City as as the core city is also a MSA.

Suburban Cities - cities of less than 50,000 population in Metropolitan Statistical Areas, other than Iowa City.

Suburban Areas - all jurisdictions (including the sheriff) within a MSA with the exception of the core city.

Rural Areas - those areas in non-MSA counties which are served by the county sheriff or other agencies which do not report directly to the Uniform Crime Reporting system.

Suburban Sheriffs - county sheriffs in MSA counties.

Non-Suburban Cities - all cities outside of MSAs.

University Police - university campus security departments reporting directly to the Data Services Bureau. Since 1979, this category has included the University of Iowa, Iowa State University, and the University of Northern Iowa. In 1977, only Iowa State University was included. The University of Iowa was added in 1978, and the University of Northern Iowa in 1979.

Uses and Limitations of the Uniform Crime Reporting System

The UCR system has been developed to serve as a tool to assist jurisditions in obtaining comparative information which can assist in the allocation of personnel, budgeting, deployment of resources, and the like. Under ideal circumstances, the system can be of great benefit to criminal justice agencies, other public and private agencies, and to interested citizens.

Nevertheless, caution should be exercised in making direct comparisons of crime, arrest, and clearance data for different law enforcement agencies. Uniform crime reports should not be taken at face value, but used in conjunction with other data to better understand crime patterns. Index offense totals, for example, are reported crimes which relate to events while arrests relate to persons. A single reported offense may involve several crimes, several offenders, and several victims. Many arrests may involve only one such offense, while others result in a clearing of multiple offenses. An offense is "cleared" by the arrest of at least one person, or by exceptional means (suicide, or offender killed by police or citizen, etc.). Arrests must generally be accompanied by an offense charge and the offender(s) must be turned over to the courts for prosecution in order to count as a clearance.

In addition, statistics on reported crime do not distingush between crimes committed by non-residents and residents in a particular jurisdiction. Listed below are some additional conditions which can affect data on reported crimes, arrrests, and clearances in different areas.

1. Density of population and geographic size of community.
2. Composition of the population with reference particularly to sex, age, and race.
3. Economic status of the population.
4. Mobility of the population.
5. Climate.
6. Educational, recreational, and religious characteristics.
7. Policies, effective strength, and standards governing appointment to law enforcement agencies.
8. Policies of the prosecuting officials, courts, and correctional agencies.
9. Public awareness of crime and concern about it.
10. Attitudes of the public toward crime and law enforcement agencies.
11. The degree to which law enforcement agencies adhere to crime reporting standards.

Limitations of the Uniform Crime Reporting System have been debated extensively. Relying primarily on the reports of citizens, the figures included in Uniform Crime Reports reflect wide variations in the tendency of citizens to report crimes. Citizens may not report all crimes to law enforcement agencies, believing that there is nothing the police can do, fearing retaliation from offenders or wishing to avoid any involvement with the criminal justice system.

The degree to which crimes are reported by citizens varies considerably from offense to offense and from area to area. Based on victimization survey studies completed in metropolitan areas and nationwide, the percentage of actual crimes reported to law enforcement agencies is related to such factors as:

1. the seriousness of the crime and/or value of goods lost;
2. the victim's perception of the likelihood of apprehending the suspect;
3. the presence or absence of insurance on the stolen property.

Data from victimization surveys indicates that reporting rates may be as low as one in five for some crimes (e.g. larceny). Thus, the Uniform Crime Reports do not contain a complete accounting of crime within jurisdictions. However, the UCR system constitutes the best network of state and national crime figures currently available. Victimization survey data also indicate higher reporting rates for offenses other than larceny, although many offenses in each category apparently do not come to the attention of law enforcement agencies.

Inconsistent record-keeping procedures have contributed to the inaccuracy of uniform crime reporting in past years. Within the past decade, there have been dramatic improvements in law enforcement records management and reporting systems. These changes have probably had a considerable affect on the amount of crime reported within some jurisdictions. Major metropolitan areas have been in the forefront of this improvement with the procurement of sophisticated computer systems to record and keep track of reported crimes. Since the development of the Iowa UCR system, however, the most notable changes have occurred in some of the smaller jurisdictions, particularly in rural areas.

Although conclusive information on the subject is not available, it is possible that at least a portion of the increase in crime reported during past years is due to improvements in recordkeeping, particularly in the rural areas. Further, because these rural jurisdictions started with low levels of crime — both in raw numbers and rate per population — large percentage increases can take place without great numerical increases.

Changes in crime rates can also be affected by fluctuations which may be due to probability. Statistical theory indicates that the smaller the number in a sample - e.g., the smaller the number of reported crimes in a jurisdiction in a given year - the more susceptible the rate is to relatively great variation in mean (average) and standard deviation. What this means, in lay terms, is that the reported crimes in smaller jurisdictions will vary more from year to year — without necessarily indicating a trend — than will reported crimes in larger jurisdictions experiencing more crime.

PART I

ANALYSIS OF REPORTED CRIMES IN IOWA

1979 - 1984 TRENDS

1984 PATTERNS

I. INDEX CRIME TOTALS AND RATES

Iowa experienced a decline in the number of index crimes reported to law enforcement agencies in 1984, for the fourth consecutive year. The 1984 total of 110,565 index crimes reported to Iowa's law enforcement agencies represented a decline of 2.9 percent from the 1983 total of 113,854 reported offenses. Figure 1 illustrates the trend in the annual total of reported index offenses for the state from 1979 through 1984. The 1984 total (110,565) was 11.5 percent lower than the 1979 total (124,873) and 19.7 percent lower than the peak annual total of 137,763 index crimes reported to law enforcement agencies in 1980.

Figure 2 presents the annual rates (offenses per 100,000 population) of index crimes reported in Iowa during the years 1979 through 1984. As with the numbers of reported offenses, the index crime rate for the state has declined in each of the past four years. In 1984, there were 3,799 index crimes reported to Iowa law enforcement agencies per 100,000 persons in the estimated population of the state, which was 2.7 percent lower than the 1983 rate of 3,904 and 19.7 percent lower than the 1980 peak annual rate of 4,729. The 1984 rate was 11.7 percent lower than the 1979 rate of 4,301 index crimes reported per 100,000 people.

The distribution of index crimes recorded in 1984 in Iowa by individual offense categories is shown in Figures 3. In 1984, 5.2 percent of the index crimes reported statewide were in the violent categories of murder, rape, robbery, and aggravated assault, while 94.8 percent were in the three property crime categories of burglary, larceny, and motor vehicle theft.

The percent of 1984 index crimes which belonged to the violent categories (5.2) was 13 percent higher than the comparable 1983 percentage (4.6). Larceny, however, remained similar to the 1983 pattern and accounted for almost 68 percent of Iowa's 1984 reported crime index. Burglary had the second largest percentage of the index crimes reported in 1984 with 23 percent.

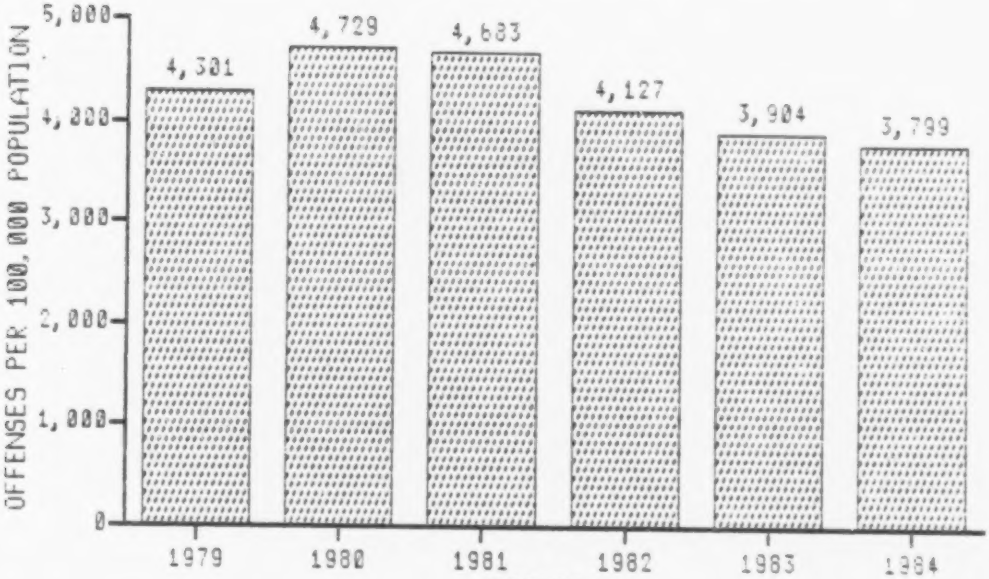
IOWA
1979 - 1984

FIGURE 1



TOTAL INDEX CRIME RATE
IOWA
1979 - 1984

FIGURE 2

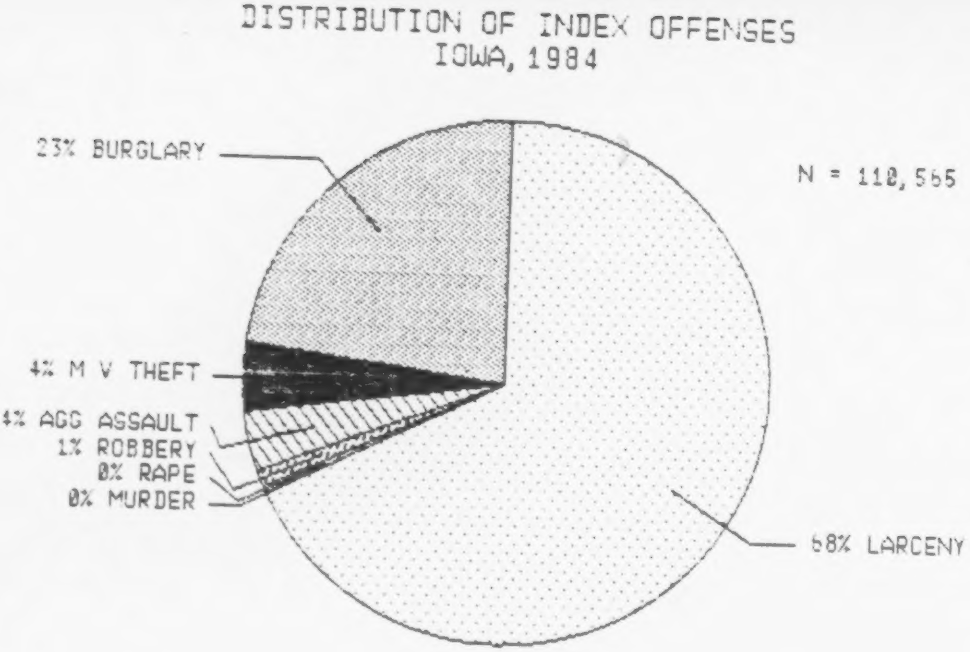


FIGURE 3

II. REPORTED VIOLENT CRIME

Figure 4 shows the trend in reported violent index offenses between 1979 and 1984 in Iowa. The 5,781 reported offenses recorded in 1984 represented an increase of 9.9 percent from the corresponding 1983 figure of 5,262 offenses. The 1984 count was 2.0 percent less than peak annual figure of 5,901 violent index offenses recorded in 1981, and 9.9 percent greater than the 1979 total of 5,258 violent index crimes.

Violent crime rates for the years from 1979 through 1984 are illustrated in Figure 5. This trend parallels that for reported violent crime totals shown in the previous figure. There was a 10.6 percent increase in Iowa's violent crime rate between 1983 and 1984. Iowa's violent crime rate in 1984 was 9.9 percent higher than the 1979 rate.

FIGURE 5

III. REPORTED PROPERTY CRIME

Annual figures for reported property crime in Iowa for the years 1979 through 1984 are represented in Figure 6. The figure of 104,784 reported property crimes in 1984 was 3.5 percent less than the number reported for 1983 (108,592). Figure 6 shows that the property crime index has decreased for four consecutive years after reaching an annual peak of 131,941 reported crimes in 1980.

Property crime rates are depicted in Figure 7 for the years 1979 through 1984. The 1984 rate of 3,601 reported property crimes per 100,000 population was 3.3 percent lower than the 1983 rate of 3,724, and 20.5 percent lower than the peak annual rate (4,529 offenses per 100,000 population in 1980).

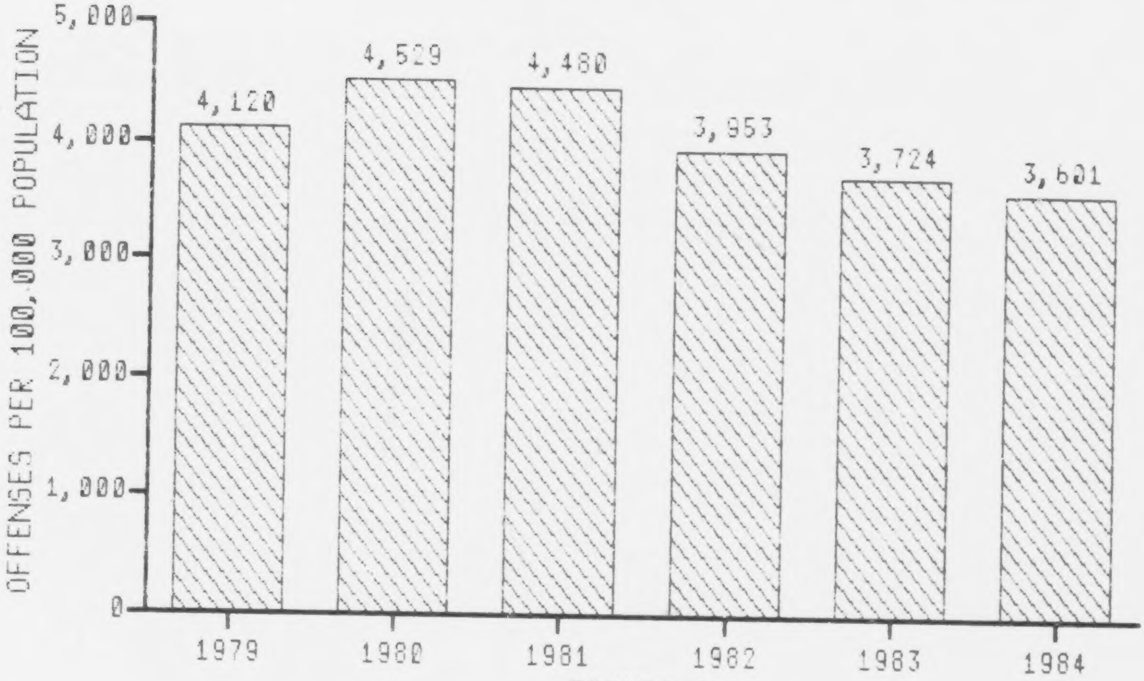

FIGURE 7

IV. VALUE OF PROPERTY REPORTED STOLEN AND RECOVERED (INCLUDING FARM THEFT)

The estimated value of property reported stolen in Iowa during 1984 was $44,336,379. Of this total, over 13.3 million dollars ($13,340,646), or 30.1 percent, was reported as having been recovered. The value of property reported stolen in the state during 1984 was .03 percent less than the 1983 total of $44,351,941.

Figure 8 show a breakdown of the estimated dollar value of property reported stolen in Iowa during 1984. As in all prior years for which this data has been collected for Iowa, stolen motor vehicles made up the largest single category, other than "miscellaneous." Stolen vehicles accounted for 12.4 million dollars of estimated value in 1984. The motor vehicle category of stolen property also had the highest recovery rate, 76.3 percent, or almost 9.5 million dollars worth.

Since 1979, the Iowa Uniform Crime Reporting System has provided for the collection of detailed information on farm-related theft. While this category accounted for only 6.0 percent of the total dollar value of property reported stolen in 1984, its significance to Iowa is enhanced by the central role of agriculture in the economy of the state. Of the $2,637,711 worth of property stolen in farm-related thefts during 1984, $1,192,189 worth was livestock. This was nearly a six percent increase in the dollar value of total livestock stolen over 1983 when 1.1 million dollars worth ($1,125,010) of livestock was reported stolen. Overall, the value of farm related stolen property increased from $2,522,491 in 1983 to $2,637,711 in 1984, a rise of 4.6 percent.

V. INDIVIDUAL INDEX OFFENSE CATEGORIES

A. MURDER

Figure 10 shows the number of murders recorded in Iowa each year from 1979 through 1984. There were 59 murders in 1984, the lowest recorded number of murders between 1979 and 1984. The highest recorded number for this period was 75 murders in 1981. Discerning a trend in these figures is difficult because of the relatively small numbers involved. The 59 murders recorded in 1984 represented a decrease of thirteen percent from the 1983 total of 68. The 1984 figure was also nine percent less than the number occurring in 1979 (65) and twenty-one percent less than the 1981 peak annual figure.

Iowa's murder rate for the years 1979 through 1984 is illustrated in Figure 11. Parallel to the low number of recorded murders in 1984, the murder rate of 2.0 for 1984 represented the lowest murder rate for the period shown. The 1984 murder rate was thirteen percent less than the 1983 rate of 2.3. The peak annual murder rate between 1979 and 1984 was the 1981 rate of 2.6 offenses per 100,000 estimated population.

Substantial information concerning the characteristics of murderers and their victims is manually tabulated from Supplemental Homicide Report forms submitted by local reporting jurisdictions. Breakdowns of these characteristics are illustrated in Figures 12 through 22.

Figure 12 shows the ages of murder victims during 1984. The age of one of the 59 victims in 1984 was not identified. Seventeen (29.3 percent) of the remaining 58 victims were between the ages of 16 and 25 which is only slightly less than the corresponding figure in 1983 when twenty (29.4 percent) out of 68 murder victims were between the ages of 16 and 25. Fifty-five percent (32) of the 58 victims with known ages were between the ages of 16 and 40. Eighteen, or 31 percent, of the 58 victims with known ages were 46 years of age or over. In 1983, only 10, or 14.7 percent, of the 68 murder victims were over forty-six years of age.

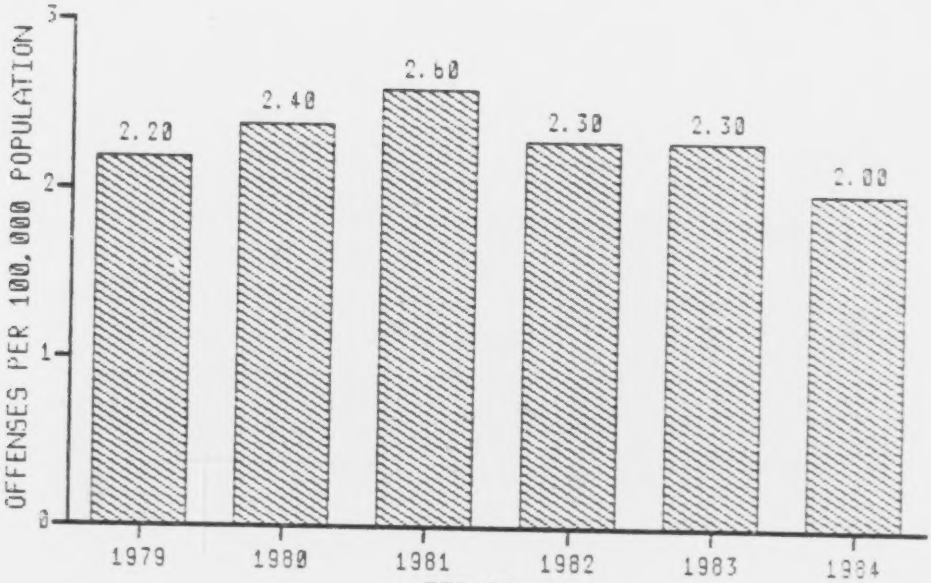

FIGURE 11

MURDER: AGES OF VICTIMS
IOWA, 1984

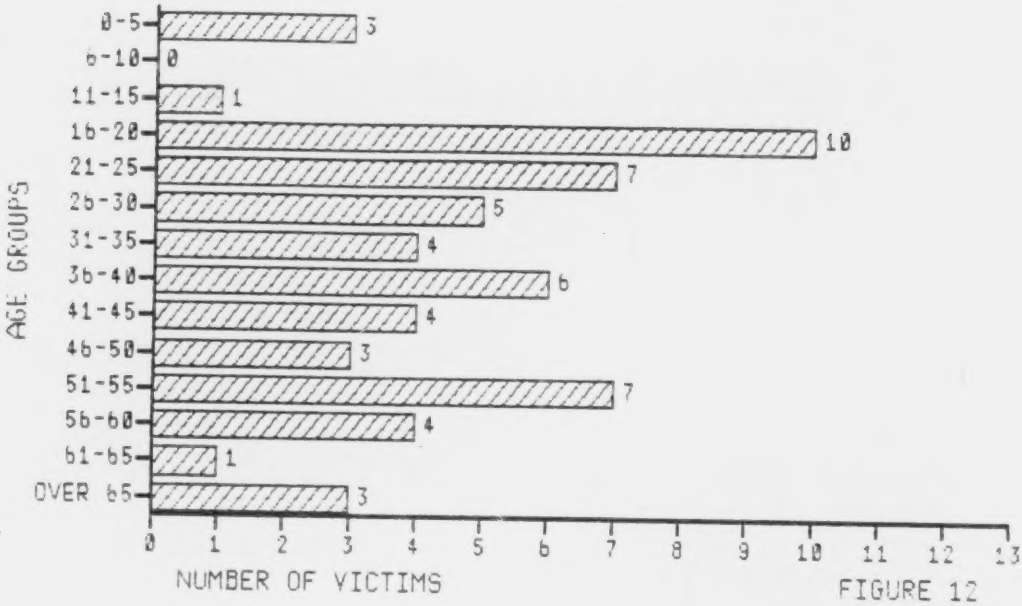

FIGURE 12

MURDER: SEX OF VICTIMS
IOWA, 1984

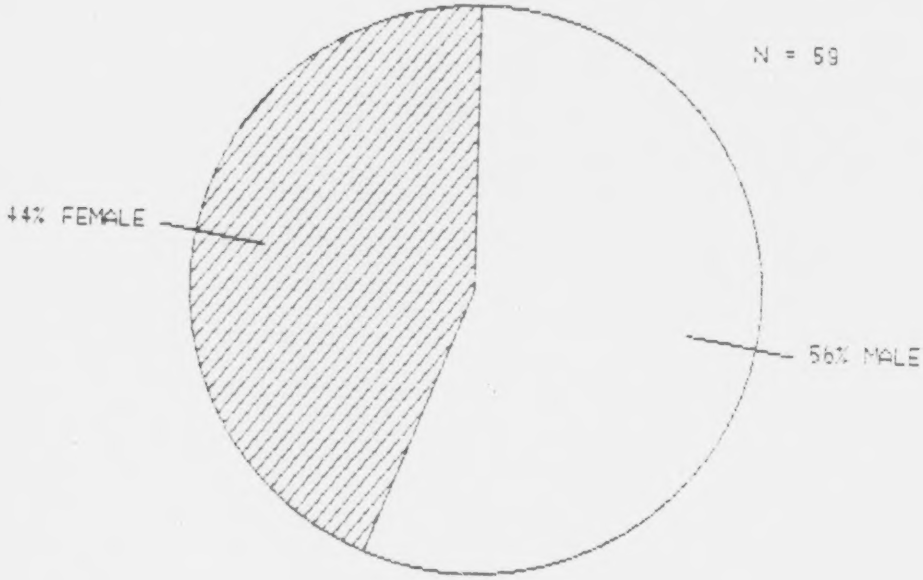

FIGURE 13

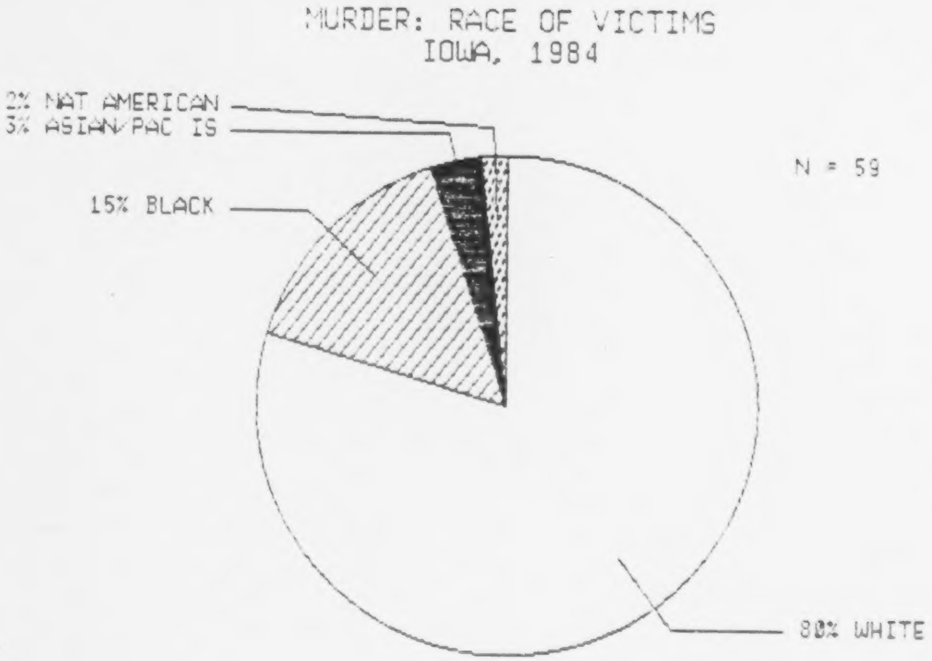

FIGURE 14

The sex of murder victims in 1984 is depicted in Figure 13. Thirty-three of the 59 victims (56 percent) were males. Forty-four percent, or 26, of the victims in 1984 were female which represents an increase in the proportion of female murder victims. In 1983, the proportion of female murder victims was 33.8 percent (23 out of 68).

The racial distribution of the 59 murder victims recorded in Iowa in 1984 is illustrated in Figure 14. Forty-seven of the victims (80%) were white. Nine (15 percent) were black. There were two victims who were of Asian or Pacific Islander origin and one Native American. In 1983, 26 percent (18 out of 68) of the victims were black and 71 percent (48 out of 68) were white. The number of black murder victims in 1984 was 50 percent less than the comparable 1983 figure.

Forty-seven murderers were identified by Iowa law enforcement agencies in 1984. In eleven situations, the identity of the murderer(s) was unknown. The next few charts present a summary of what is known about them.

Ages of known murderers are represented in Figure 15 for 1984. Thirty-eight percent of the identified murderers were between the ages of sixteen and twenty-five.

Figure 16 depicts the gender of known murderers in 1984. Eight of the forty-seven known offenders were females (17%). In 1983, 14 percent of known offenders were females.

A breakdown by race of the identified murderers for 1984 is shown in Figure 17. In 1984, 5 (11%) of the 47 known Iowa murder offenders were black which is 64 percent less than the 1983 figure when 14 (25 percent) of the 68 known murderers were black. In addition, two known offenders were Native Americans and three were of Asian or Pacific Islander origin. None of the murderers identified in 1983 were in these categories.

Data on relationships between murderers and their victims is shown in Figure 18. Eighty-four percent of the 50 identified relationships involved a prior acquaintance between the victim and offender. Family relationships were identified 39 percent of the time in 1984. In 1983, family relationships accounted for 34 percent of the relationships.

The 58 murder situations reported in Iowa during 1984 are depicted in Figure 19. Seventy-one percent (41 out of 58) of the murder incidents involved a single victim and a single offender which is an increase over 1983 when 63 percent of the murder situations involved a single victim and a single offender.

Weapons usage in Iowa homicides during 1984 is illustrated in Figure 20. Handguns were used in 31 percent of the murders recorded in 1984 compared to 38 percent in 1983. Other firearms, including ones which were not specifically identified, were used in another 20 percent (12 out of 59) of the known murders. One of the 59 murder weapons was not identified. Strangulation occurred in four cases and is included in the personal weapons category.

MURDER: RELATIONSHIPS BETWEEN VICTIMS AND OFFENDERS
IOWA, 1984

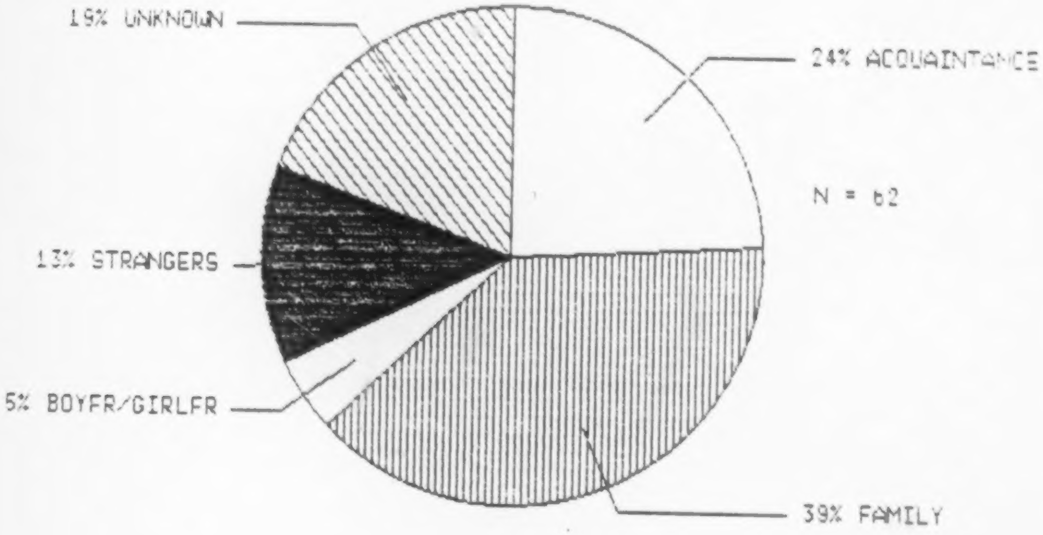

FIGURE 18

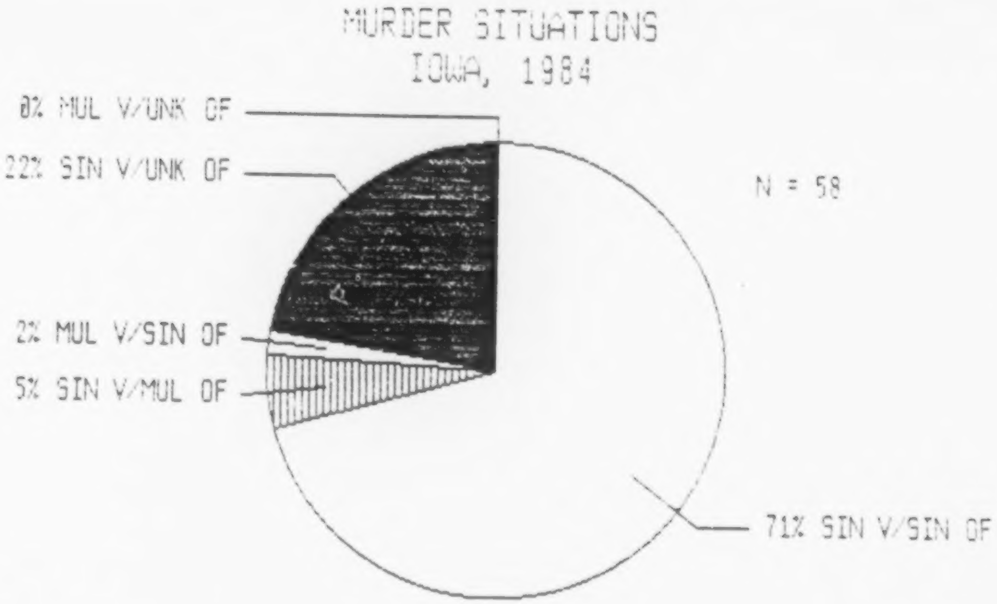

FIGURE 19

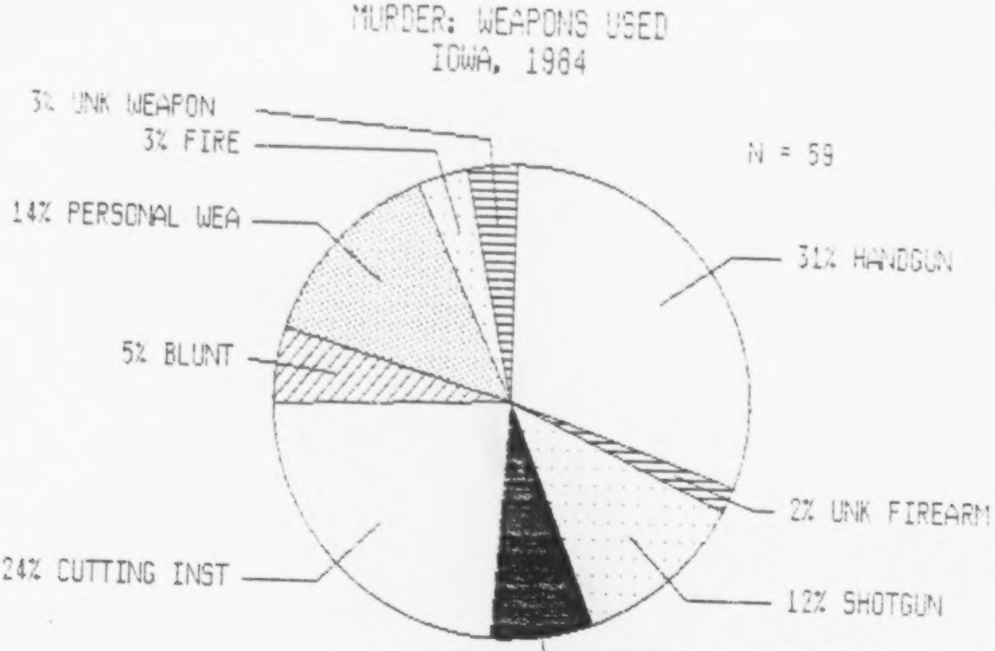

FIGURE 20

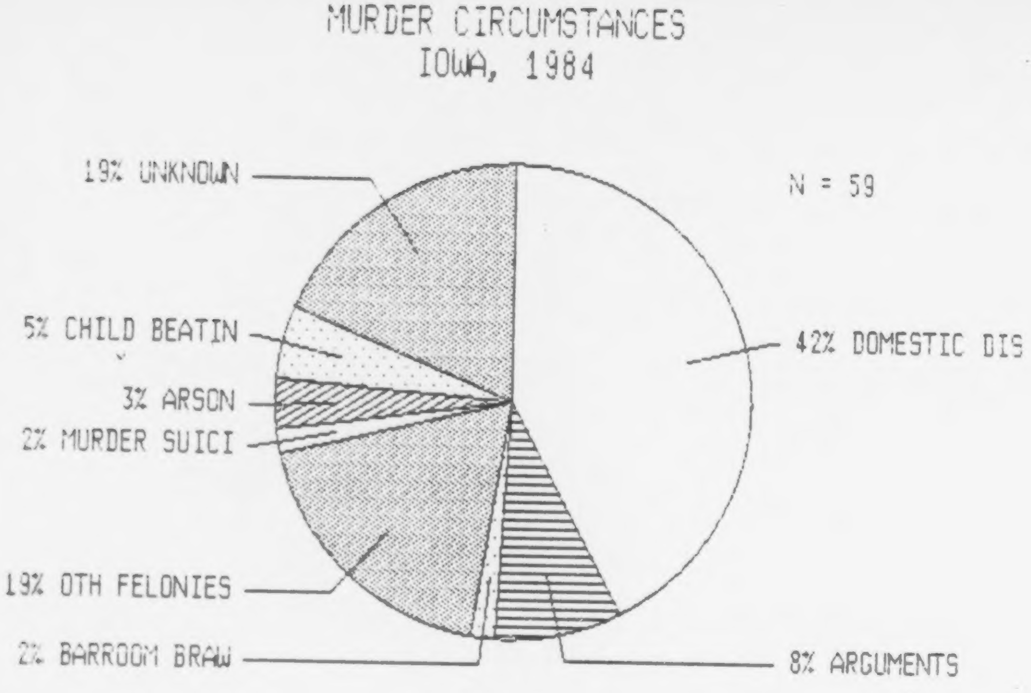

FIGURE 21

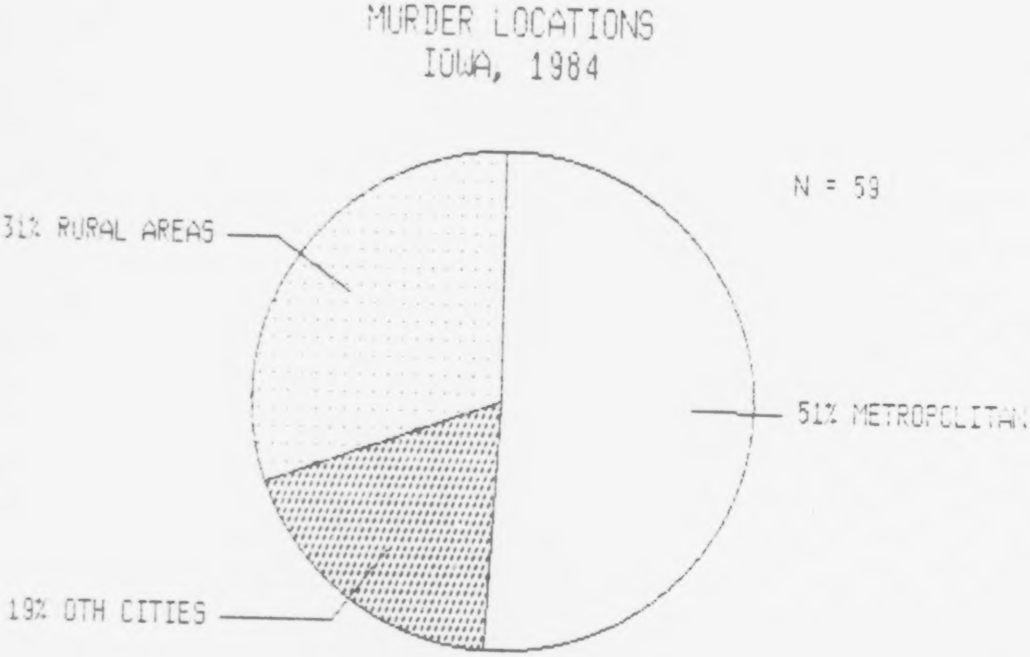

FIGURE 22

Figure 21 depicts the circumstances of homicides recorded in Iowa in 1984. Circumstances involving family members, girlfriends and boyfriends, as well as jealousies, are included in the category labeled "domestic disputes." Forty-two percent (25) of the 59 known murders in 1984 stemmed from domestic disputes. The categories of "other felonies" and "unknown" each represented 19 percent of the circumstances of Iowa murders during 1984.

Data on murder locations during 1984 is shown in Figure 22. Fifty-one percent (30) of the 59 homicides occurred in Iowa's metropolitan areas. Eighteen, or 31 percent, of the murders in 1984 took place in rural areas, which is slightly more than the comparable 1983 figure (24%).

B. RAPE

The trend of rapes reported to Iowa law enforcement agencies from 1979 through 1984 is shown in Figure 23. The 375 forcible rapes reported in Iowa during 1984 represented an increase of 2.7 percent from the 1983 figure of 365. There were 17.6 percent more rapes recorded in 1984 (375) than there were in 1979 (319). However, the 1984 figure was 9 percent lower than the peak annual figure of 412 forcible rapes recorded in 1980.

Offense rates for reported rapes in Iowa for the years 1979 through 1984 are shown in Figure 24. In 1984, there were 12.9 rapes reported in Iowa per 100,000 estimated population, a decline of 8.5 percent from the 1980 peak annual rate of 14.1 rapes per 100,000 population in Iowa. Compared to the 1983 rate of 12.5, the 1984 rate (12.9) was 3.2 percent higher. The 1984 rate (12.9) was 17.3 percent higher than the 1979 rate of 11.0 forcible rapes reported per 100,000 estimated population.

C. ROBBERY

Annual totals of robberies reported to law enforcement agencies from 1979 through 1984 are shown in Figure 25. There were 1,114 robberies reported to Iowa law enforcement agencies in 1984, a decrease of 6.5 percent from the 1,192 robberies recorded in Iowa during 1983. The 1984 figure was 23.5 percent less than the 1,457 robberies recorded in Iowa during 1979.

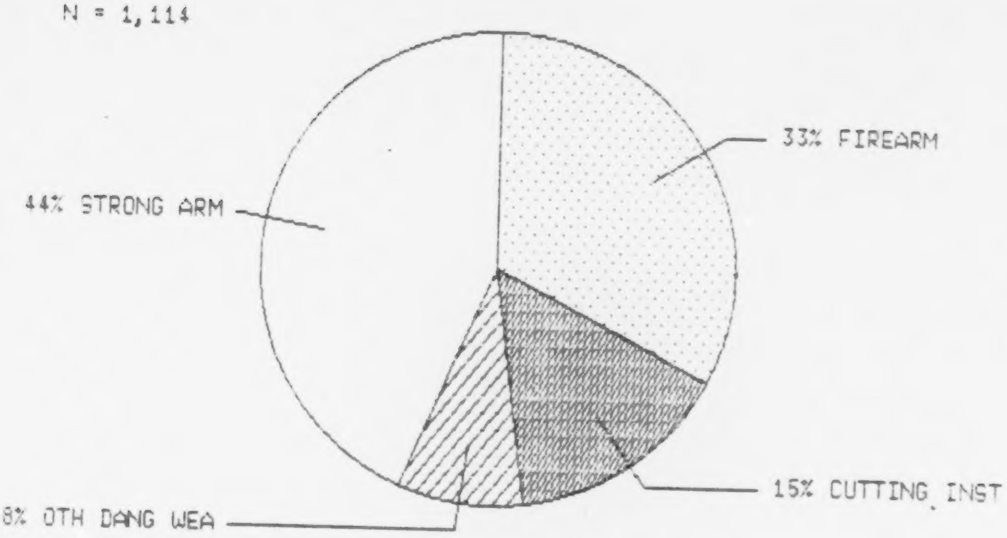
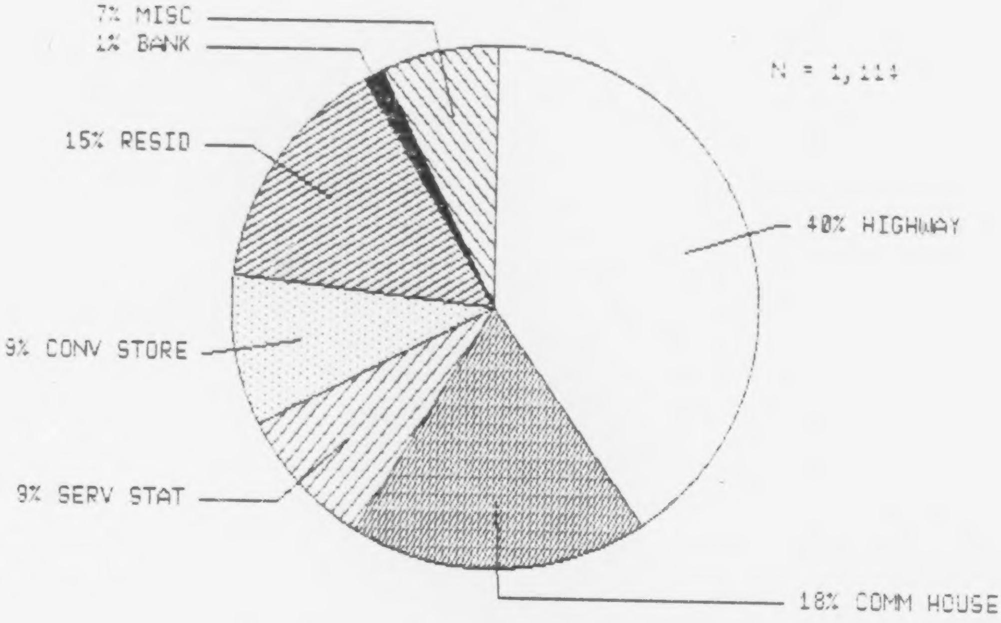
FIGURE 26



ROBBERY: WEAPONS USED
IOWA, 1984

FIGURE 27



LOCATION OF ROBBERIES
IOWA, 1984

FIGURE 28

Iowa robbery rates for the years from 1979 through 1984 are shown in Figure 26. The 1984 rate of 38.3 offenses per 100,000 population was 6.4 percent less than the 1983 rate of 40.9, and 23.7 percent less than the 1979 rate of 50.2 offenses per 100,000 population.

Figure 27 illustrates weapons use in Iowa robberies in 1984. Of the 1,114 robberies recorded in 1984, 33 percent involved firearms. Knives and other cutting instruments were used in 15 percent of the robberies, while 44 percent of the reported robberies were "strong-arm," that is, committed without the use of a dangerous weapon. The 1984 percentages are similar to those for 1983.

Locations of robberies are depicted in Figure 28. In 1984, highway robberies made up 40 percent of the total, while residences were the targets in 15 percent of the robberies.

D. AGGRAVATED ASSAULT

Annual totals of aggravated assaults reported to Iowa law enforcement agencies are shown in Figure 29 for the years 1979 through 1984. The 1984 total of aggravated assaults was the sharpest one-year increase in assaults for the entire period shown. There were 596 more assaults in 1984 than in 1983, a 16.4 percent increase. The aggravated assault total for 1984 was 24 percent higher than the 1979 total. This was the most pronounced of all individual index offense increases which occurred between 1979 and 1984.

Aggravated assault rates for 1979 through 1984 are illustrated in Figure 30. The rate for 1984 was the peak annual total for the period shown. The 1984 rate of 145.5 was 16.7 percent greater than the 1983 rate (124.7) and 23.6 percent higher than the 1979 rate (117.7).

AGGRAVATED ASSAULTS IN IOWA
1979 - 1984

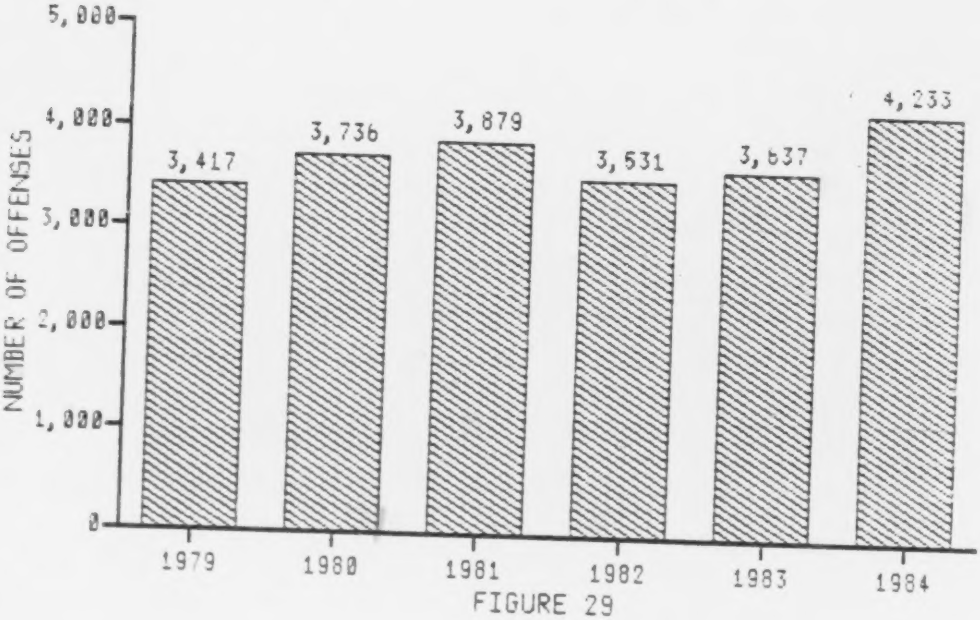


FIGURE 29

AGGRAVATED ASSAULT RATE
IOWA, 1979 - 1984

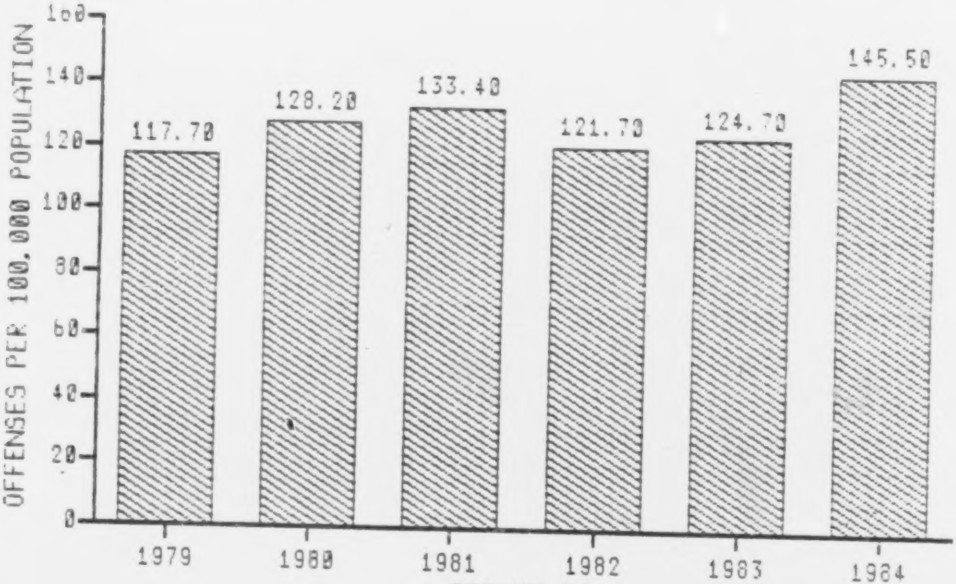

FIGURE 30

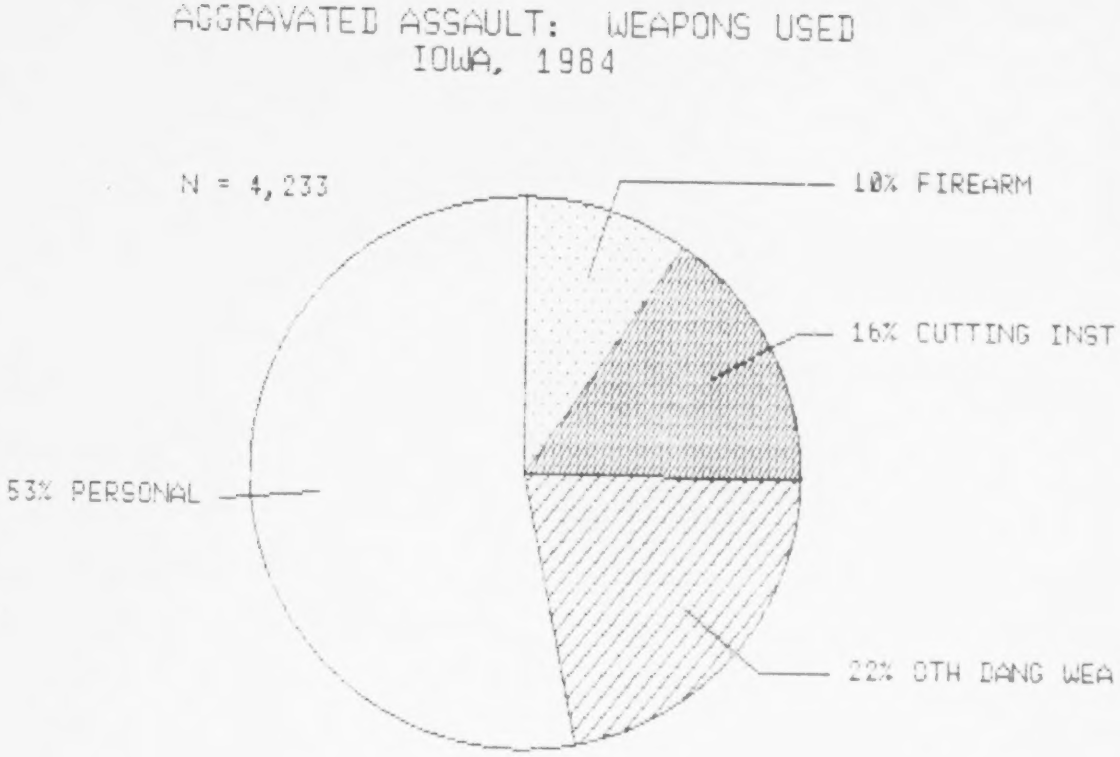

AGGRAVATED ASSAULT: WEAPONS USED
IOWA, 1984

FIGURE 31

The type of weapons used in aggravated assaults during 1984 is depicted in Figure 31. Personal weapons were used in 53 percent of the aggravated assaults reported in 1984, with firearms being used in 10 percent and cutting instruments in 16 percent of the assaults. The 1984 percentages are similar to those for 1983.

E. BURGLARY

After reaching a peak annual total of 31,342 in 1980, burglaries in Iowa have declined for four consecutive years. The 1984 total of 25,357 reported burglaries was 4.7 percent less than the 1983 total of 26,596. Compared to 1979, the 1984 burglary total showed a decrease of 5.3 percent. Reported burglaries in Iowa between 1979 and 1984 are represented in Figure 32.

Iowa's burglary rate for 1979 through 1984 is illustrated in Figure 33. The 1984 rate of 871.4 reported offenses per 100,000 population was 4.5 percent lower than the 1983 rate of 912.0 and 5.5 percent less than the 1979 figure of 922.0 reported burglaries per 100,000 estimated population.

The distribution of burglaries by time of day and whether the target was residential or non-residential is shown in Figure 34. Similar to 1983, the largest categories were non-residential nighttime and residential nighttime burglaries.

Types of entry in Iowa burglaries during 1984 are summarized in Figure 35. Nearly seven of every ten reported burglaries involved forcible entry. Also, nearly one-fourth of the reported burglaries required only a non-forcible, although unlawful entry. These percentages are quite similar to ones found for prior years.

F. LARCENY

Reported larcenies in Iowa are represented in Figure 36 for 1979 through 1984. After reaching a peak for this period of 93,421 in 1980, larcenies in Iowa have been declining for four consecutive years. The 1984 total of 74,818 was 3.3 percent less than the 1983 total (77,410) and 12 percent less than the 1979 total of 85,019 reported larcenies.

Larceny rates for 1979 through 1984 are shown in Figure 37. The 1984 rate of 2,571.1 reported larcenies per 100,000 population was 3.1 percent lower than the 1983 rate (2,654.5) and 12.2 percent less than the 1979 rate of 2,928.4.

1979 - 1984

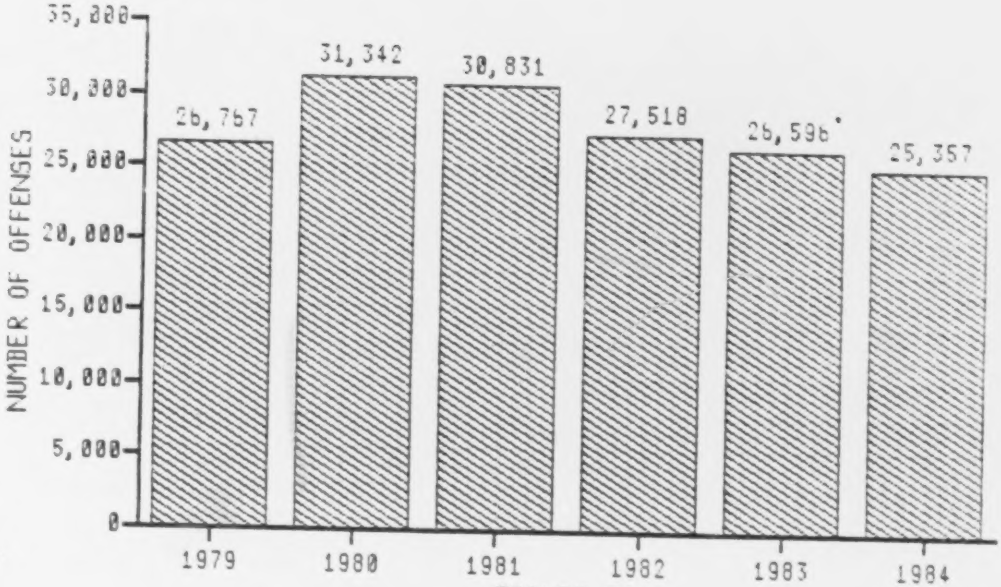

FIGURE 32

BURGLARY RATE
IOWA, 1979 - 1984

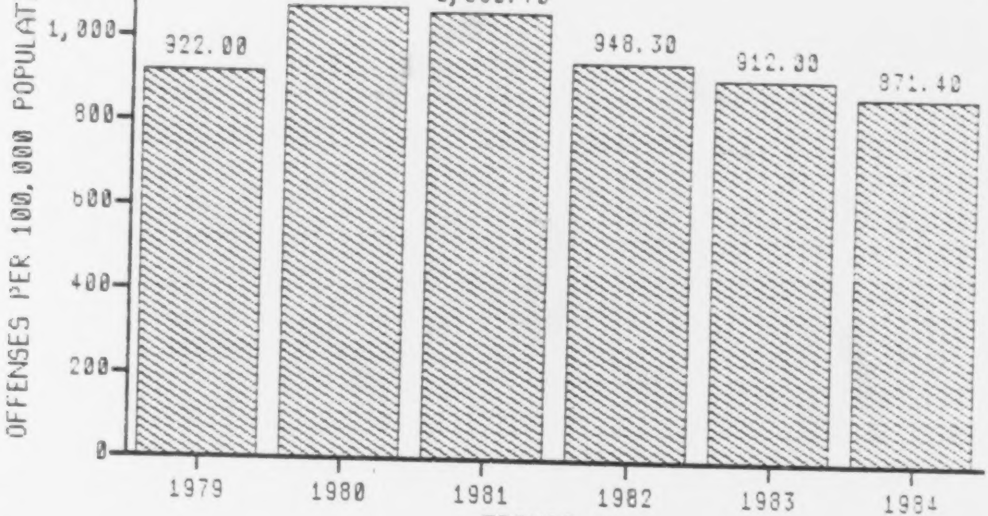

FIGURE 33

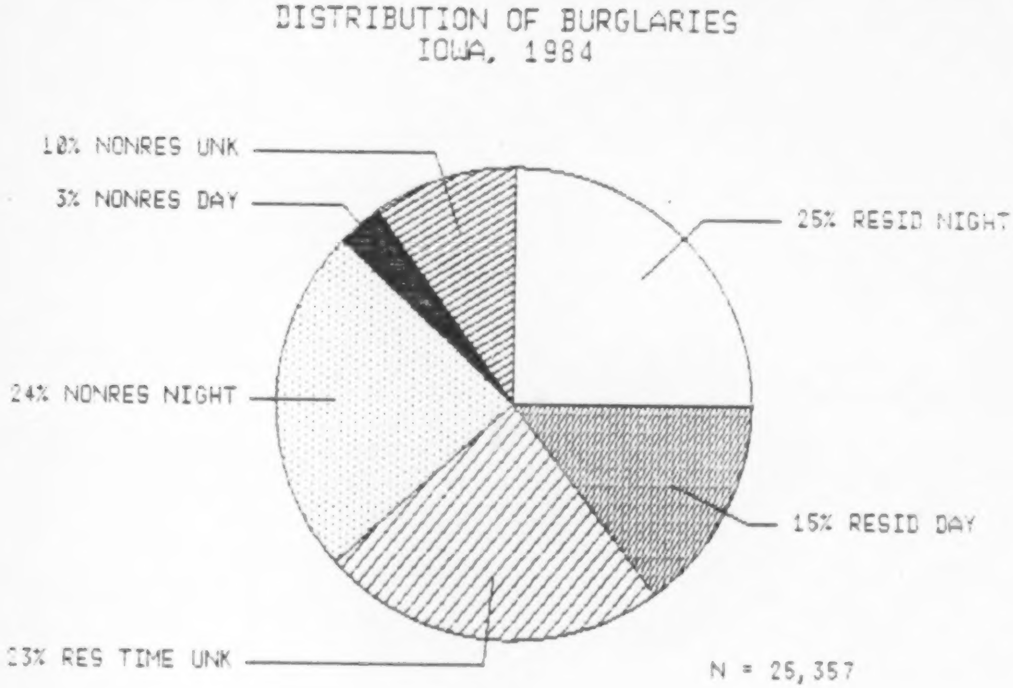

FIGURE 34

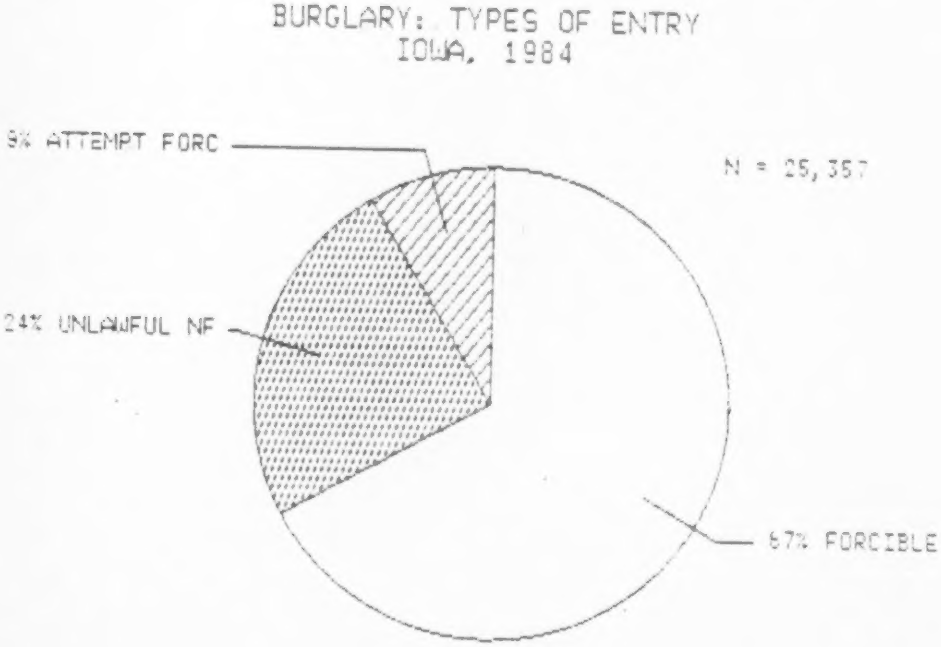

FIGURE 35

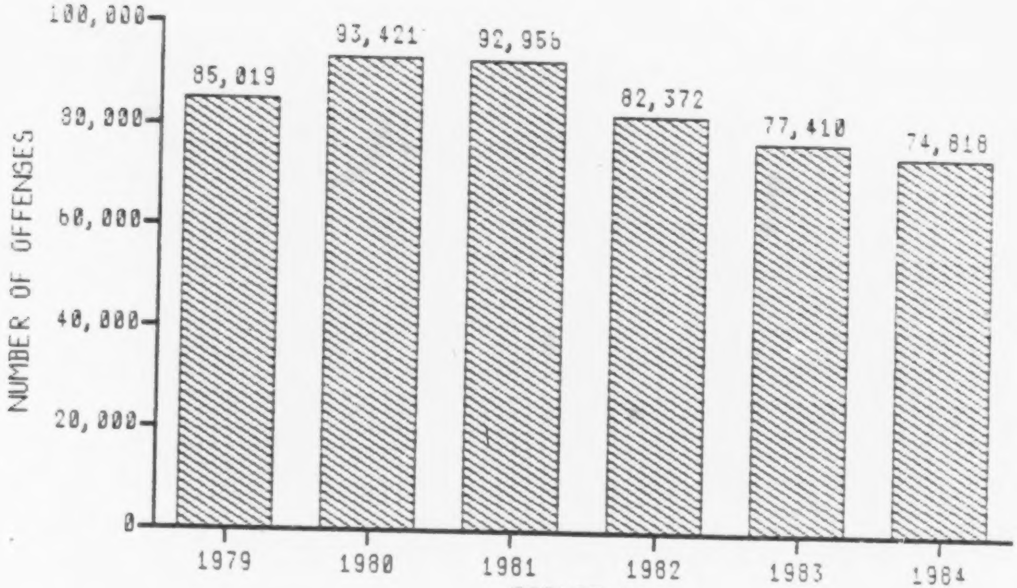
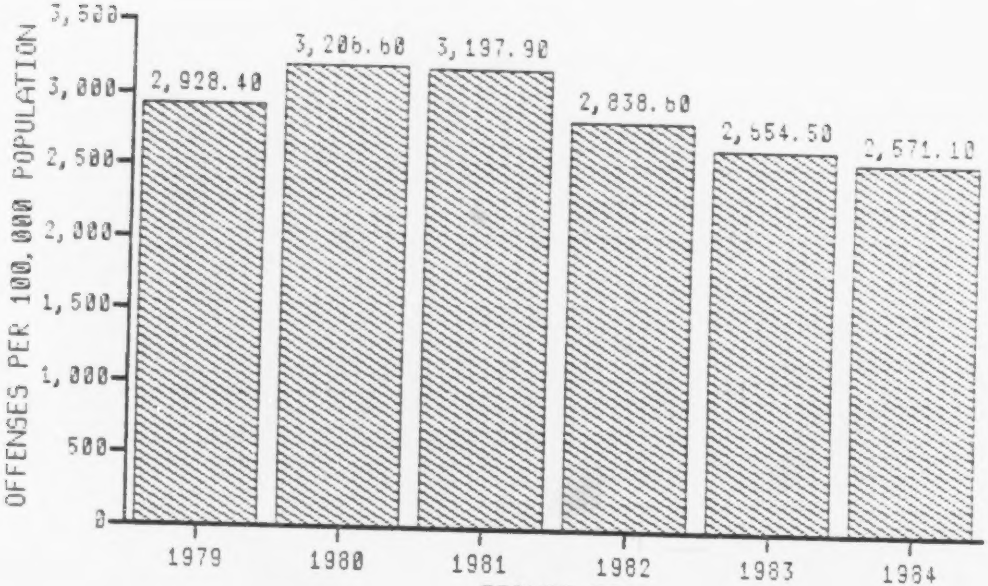


LARCENY IN IOWA
1979 - 1984

FIGURE 36



LARCENY RATE
IOWA, 1979 - 1984

FIGURE 37

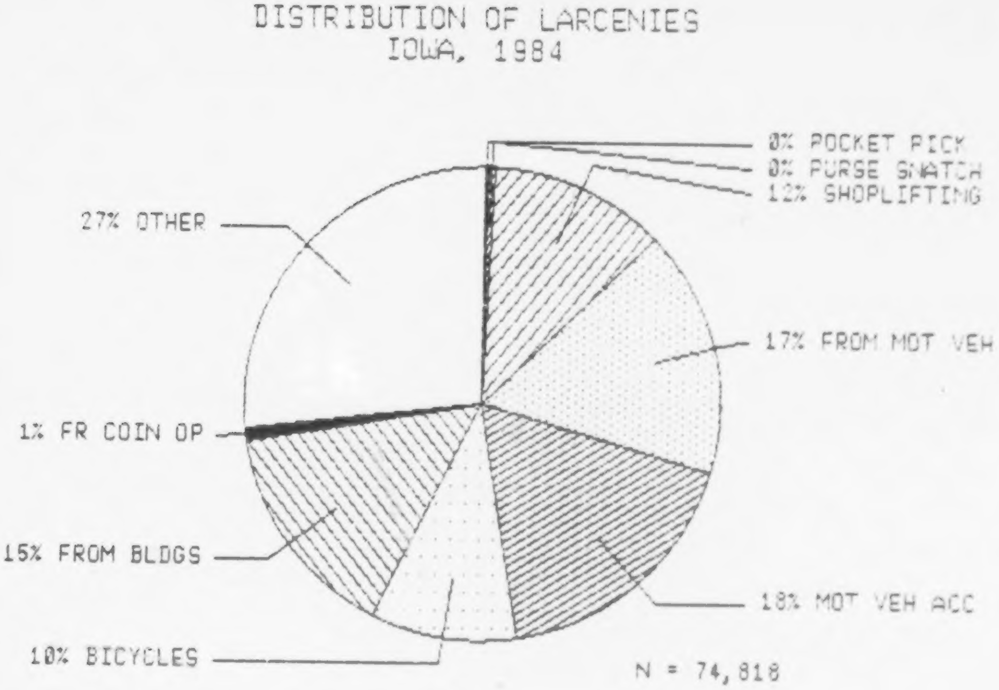


FIGURE 38

A breakdown of reported larceny by type for 1984 is shown in Figure 38. The residual "other" category was largest - 27 percent of all larcenies. Approximately one of every five reported larcenies involved the theft of motor vehicle accessories, and one of every six reported larcenies involved thefts of objects from motor vehicles. The distribution for 1984 was similar to that for 1983.

G. MOTOR VEHICLE THEFT

Annual totals of reported motor vehicle theft in Iowa for the years 1979 through 1984 are depicted in Figure 39. 1984 was the first year in which the reported number of motor vehicles stolen increased between 1979 and 1984. Up to this time, motor vehicle theft had been decreasing each year since 1979. The 1984 total of 4,609 was 41 percent less than the 1979 peak total of 7,829 motor vehicle thefts, but 0.5 percent more than the 1983 total of 4,586 motor vehicle thefts.

Iowa's motor vehicle theft rate for the years from 1979 through 1984 is shown in Figure 40. Parallel to the trend in the number of reported offenses, the 1984 rate of 158.4 thefts per 100,000 estimated population was the first increase to occur during the period shown. Although motor vehicle theft rate for 1984 was 41.3 percent lower than the 1979 rate (269.70), it was 0.7 percent greater than the 1983 rate (157.30).

The distribution of stolen motor vehicles in Iowa by type is shown for 1984 in Figure 41. Automobiles made up 50 percent of the vehicles reported stolen, while motorcycles accounted for 26 percent of the stolen vehicles. This distribution is almost identical to that for 1983.

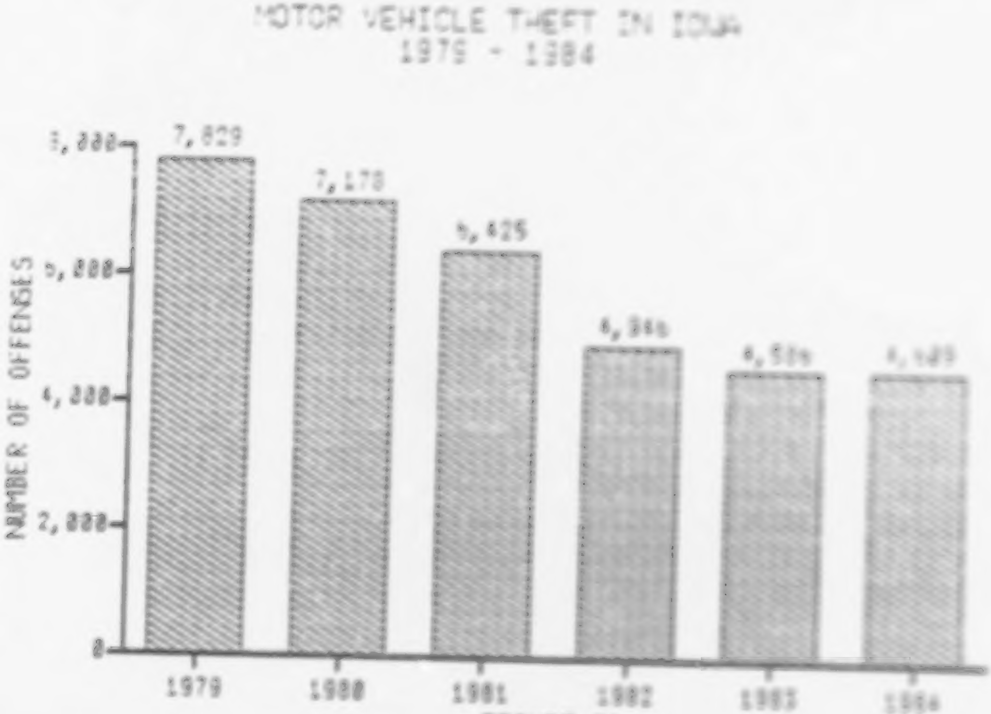

FIGURE 39

MOTOR VEHICLE THEFT RATE
IOWA, 1979 - 1984

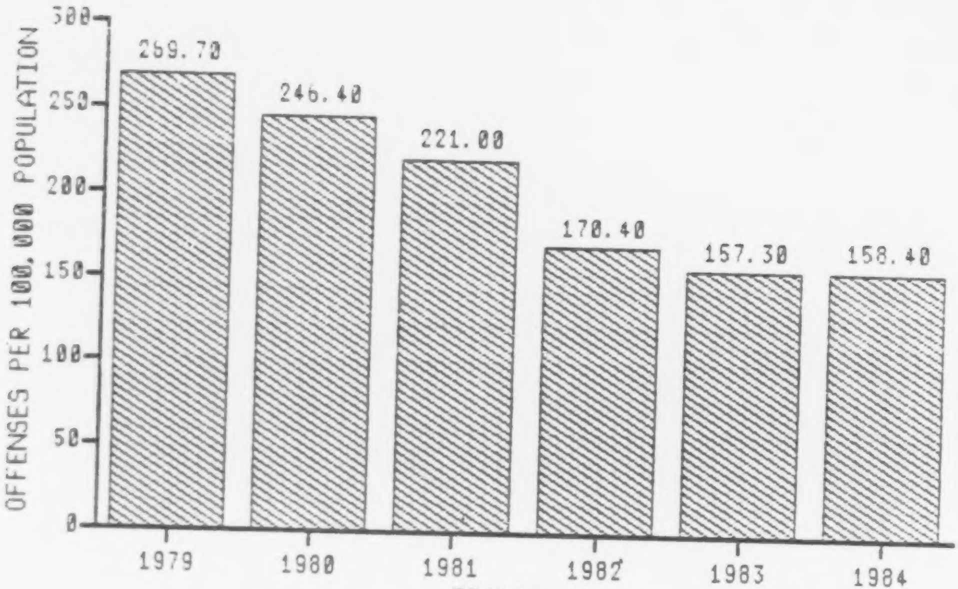

FIGURE 40

TYPES OF MOTOR VEHICLES STOLEN
IOWA, 1984

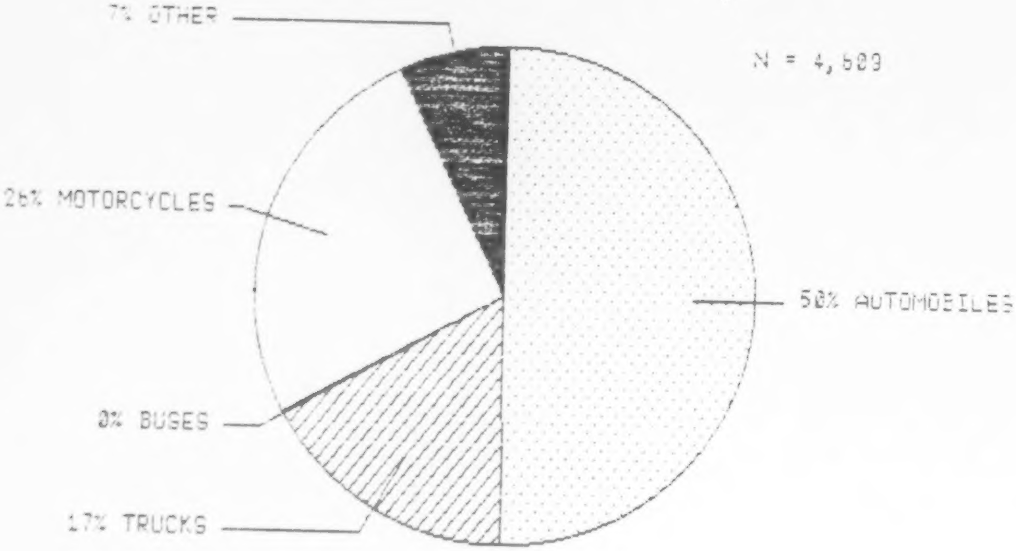

FIGURE 41

H. ARSON

Arson was added as a reportable offense to the Iowa Uniform Crime Reporting System in 1979. Regular reporting of arson offenses began in 1980. Figure 42 illustrates annual reported arson totals for 1980 through 1984. There were 1,071 arsons reported in Iowa in 1984, an increase of 29.2 percent from the 1983 total of 829. This percentage increase between 1983 and 1984 was the greatest of all individual index offenses increases which occurred in 1984, although the 1984 total was 21.7 percent lower than the 1980 total of 1,368 reported arsons.

The arson rate for 1984 was 36.8 per 100,000 estimated population. The arson rate for the period 1980 through 1984 is shown in Figure 43.

Despite the 29.2 percent increase in reported arson in 1984, the total value of arson damage reported for 1984 was 30.3 percent less than the total in 1983. Property loss damages from arson in 1984 were estimated at $5,342,248, whereas the 1983 figure was $7,668,847 (not shown). In 1983, arson directed at single family residences accounted for $4,341,733 of estimated property losses compared to 1984 when the corresponding value was $2,136,325.

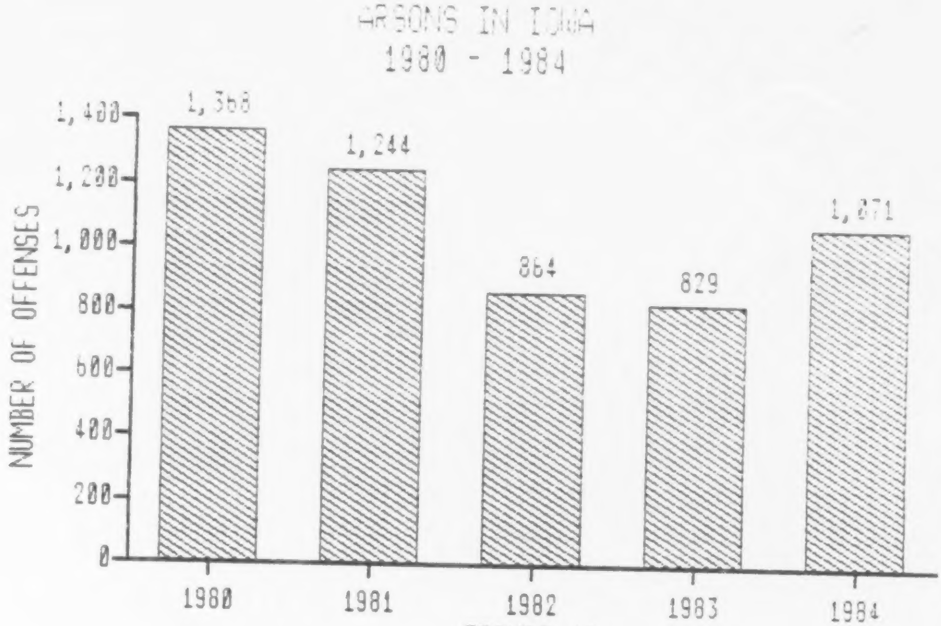

FIGURE 42

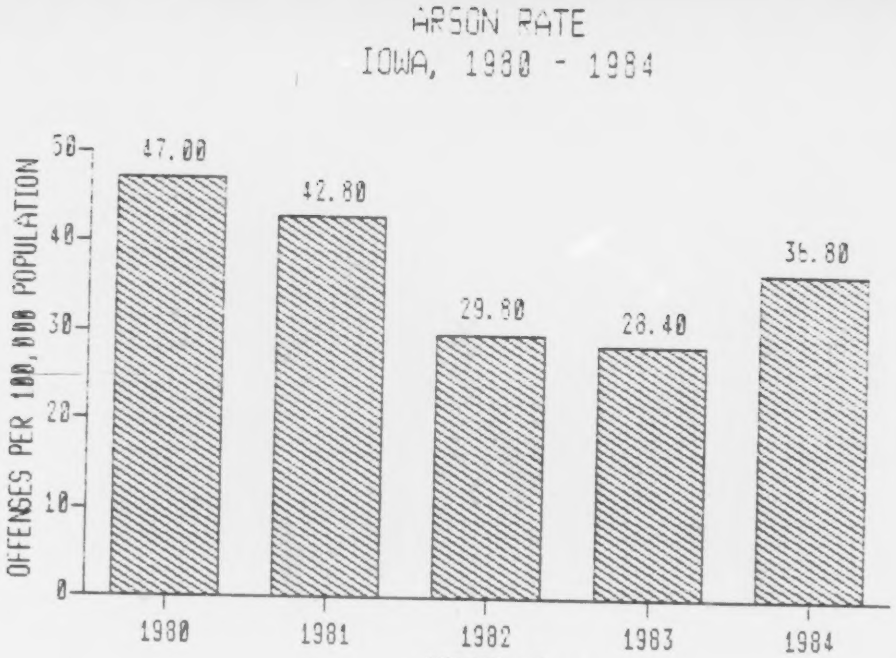

FIGURE 43

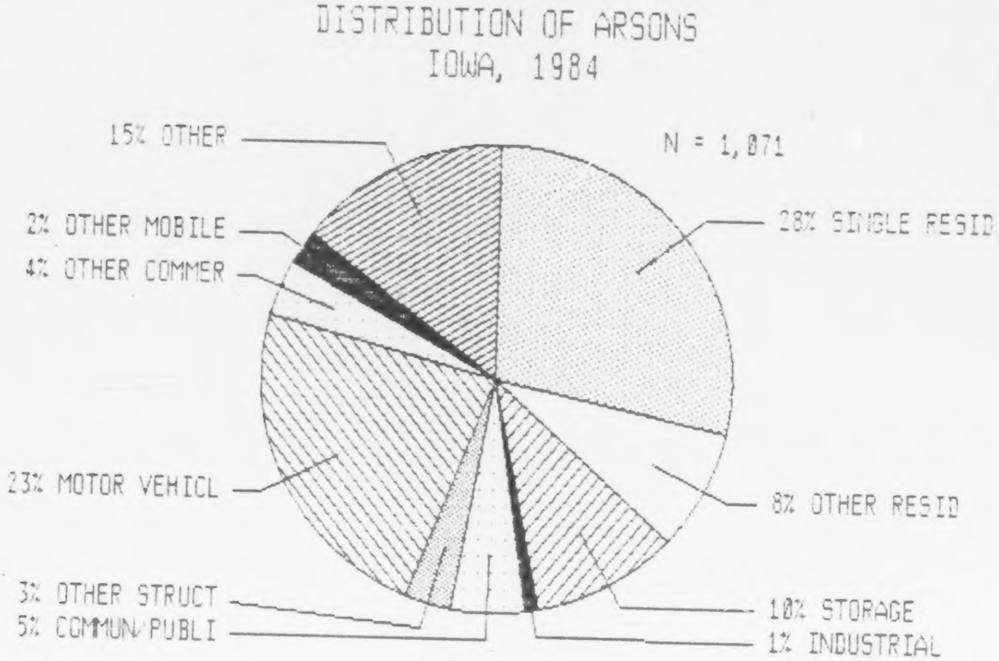

FIGURE 44

The distribution of reported arsons in 1984 by the type of property involved is shown in Figure 44. Single family residences accounted for the largest number of arsons of any category - 28.4 percent. Motor vehicles were the targets in 23.2 percent of the reported arsons in 1984.

* INCLUDES REPORTING POLICE DEPARTMENTS SERVING JURISDICTIONS WITH LESS THAN 50,000 POPULATION AND REPORTING SHERIFFS' OFFICES IN STANDARD METROPOLITAN STATISTICAL AREA COUNTIES (WOODBURY, POTTAWATTAMIE, POLK-WARREN, BLACK HAWK, LINN, DUBUQUE AND SCOTT)

CITIES ARE GROUPED BY POPULATION SIZE CATEGORIES (GROUP A - NOT USED. GROUP B - OVER 50,000.
GROUP C - BETWEEN 25,000 AND 50,000. GROUP D - BETWEEN 10,000 AND 25,000. GROUP E - BETWEEN 5,000 AND 10,000.
GROUP F - LESS THAN 5,000).

SUBURBAN & NON-SUBURBAN POLICE DEPARTMENTS ALSO INCLUDED IN CITY SIZE GROUPS.

THIS TABLE INCLUDES ONLY THOSE AGENCIES WITH 100% REPORTING.

PREFACE

The Iowa Uniform Crime Reporting System is a cooperative venture of the Iowa Department of Public Safety and the 223 local law enforcement agencies which participate in the system as direct reporting jurisdictions. Data are submitted monthly by each reporting jurisdiction to the Administrative Services Division of the Department of Public Safety, which is responsible for data entry, editing, compilation, and production of computer printouts showing various tabulations of the collected data. Analysis and preparation of the data for publication are the responsibility of the Research and Development Bureau of the Iowa Department of Public Safety.

This report contains two sections. The first covers crime rate comparisons for Iowa, the West North Central Region and the U.S. as well as 10 year trend analyses of Iowa index crimes and U.S. index crimes. This section contains a narrative. The second section contains tables comparing reported offense totals, index crime rates, and clearance rates during 1984 for the 223 local law enforcement jurisdictions in Iowa which participate as direct reporting agencies in the Iowa Uniform Crime Reporting System. This report is issued as a supplement to the volume Iowa Uniform Crime Reports, 1984 Annual Report.

EXECUTIVE SUMMARY

The 1984 Supplement to the Iowa Uniform Crime Reports, 1984 Annual Report, contains Iowa, Regional, and National crime rate comparisons in addition to comparisons of local Iowa jurisdictions.

Highlights of the Iowa-Regional-U.S. Comparisons are as follows:

- Iowa's rate of reported index crime in 1984 was 3799.5 offenses per 100,000 estimated population while the U.S. Rate for 1984 was 5031.3 offenses per 100,000 population. Iowa's index crime rate has declined four years in a row, but its ranking among the fifty states has not changed significantly as reported crime has been declining across the county. Since 1975, Iowa's ranking has stayed between 35th and 39th of the 50 states in the total index crime rate. In 1984, Iowa ranked 37th of the 50 states in index crime rates. In other words, 36 states had higher index crime rates while 13 states had lower rates. The regional index crime rate for 1984 was 3903.8 offenses per 100,000 estimated population.

- Iowa's rate of violent crime has increased for the past two years. In 1984, the state had a violent crime index of 198.7 compared to a U.S. rate of 539.2. Despite the 10.1 percent increase over 1983, Iowa's violent crime rate was substantially lower than both the U.S. rate and the regional rate of 290.2 offenses per 100,000 estimated population. In addition, Iowa's ranking of 42nd out of 50 states allowed it to remain one of 10 states with the lowest violent crime rate in 1984. The 1984 ranking for rape in Iowa was the lowest in the country. Iowa's ranking of 50 meant that 49 other states had higher rates of reported rape than Iowa during 1984.

- Iowa's property crime rate in 1984 was 3600.8 reported offenses per 100,000 population, compared to 3613.6 for the region and 4492.1 for the U.S. Iowa ranked 35th in property crime rates among the 50 states in 1984. Similar to the total index crime rate, Iowa's property crime rate has declined for the past four years, but its ranking has not fluctuated greatly. Since 1974, Iowa's property crime ranking has stayed between 33rd and 38th. Larceny was the only property offense rate for Iowa which surpassed an individual regional rate in 1984. The state had a reported larceny rate of 2571.5 which was 4.8 percent more than the regional larceny rate of 2453.1 offenses per 100,000 estimated population. Burglary and motor vehicle theft in Iowa were below the regional and U.S. rates. Since the F.B.I. does not provide arson rates for individual states, regional arson rates are not available. Providing state rankings for arson is also not possible. However, Iowa's arson rate of 36.8 for 1984 was 30.0 percent less the U.S. rate of 52.6 reported arsons per 100,000 estimated population.

Summer, 1984

PART I

IOWA-REGIONAL-U.S.
CRIME RATE COMPARISONS

1984

IOWA-REGIONAL-U.S. COMPARISONS

Iowa experienced a decline in its total index crime rate during 1984. The total index crime rate of 3799.5 offenses per 100,000 estimated population was 2.7 percent less than the comparable 1983 figure of 3904.2. Although Iowa's total index crime rate has decreased, its ranking among the 50 states has dropped from 39th place to 37th place. States with the highest offense rates rank number one while those with the lowest rates rank fiftieth. Thus, the closer Iowa's ranking moves to one, the less favorable is its position in regard to the other 50 states. Eleven states had lower index crime rates than Iowa in 1983, but in 1984 there were 13 states with lower rates than Iowa.

As Table I demonstrates, Iowa's national ranking for Part I Crimes deteriorated in 7 categories during 1984. Iowa's ranking for violent crime rate, for example, went from 44th in 1983 to 42nd in 1984. Despite the less favorable rankings for Iowa in 1984, the state was still among 15 states with the lowest Part I Crime Rates in every offense category except larceny. (Rankings are not available for arson.)

In three categories, Iowa held the same ranking for a Part I Crime for 1984 as it did in 1983. Table I shows that the state had the same ranking among the 50 states for 1983 and 1984 for murder, rape, and larceny at 45, 50 and 27 respectively. Larceny has fluctuated from a low ranking of 27 to a high ranking of 18 in 1980.

Iowa's crime rates are, for the most part, lower than both the U.S. and regional Part I crime rates. The state of Iowa is included in the West North Central Region which is comprised of Kansas, Minnesota, Missouri, Nebraska North Dakota and South Dakota. During 1984, Iowa was below every regional offense rate except one and was below every U.S. Part I offense rate.

Table 2 and Figure 1 show that Iowa's index total rate for 1984 was 3799.5 offenses per 100,000 estimated population whereas the regional rate was 3903.8. Iowa's index rate was 2.7 percent less than the regional rate and 24.5 percent less than the U.S. rate of 5031.3.

---

[1] West North Central Region includes Iowa, Kansas, Minnesota, Missouri Nebraska, North Dakota and South Dakota.

[2] Because of rounding, offenses may not add up to totals.

[3] Arson not included in Index Total or Property Total.

The sharpest contrast between Iowa crime rates on the one hand, and regional and national rates on the other hand was in the category of robbery. In 1984, the state had a robbery rate of 38.3 per 100,000 population which was 51.1% percent less than the regional rate of 78.3 and 81.4 percent less than the U.S. robbery rate of 205.4.

With a 1984 ranking of 27th among the 50 states, Iowa's reported larceny rate of 2571.5 was the only Part I rate to exceed the regional rate (2453.1). The larceny rate for Iowa in 1984 was 4.8 percent more than the regional rate and only 7.9 percent less than the U.S. rate of 2791.3 offenses per 100,000 population.

The violent crime rate figure for 1984 shows that eight other states had lower rates than Iowa. The state enjoyed a favorable position compared to the region since Iowa's violent crime rate of 198.7 was 31.5 percent less than the regional rate of 290.2. The 1984 violent crime rate for Iowa was also 63.1 percent less than the U.S. rate of 539.2 offenses per 100,000 population.

During 1984, Iowa had a reported property crime rate of 3600.8 offenses per 100,000 population which gave the state a ranking of 35th among the 50 states. This rate was 0.4 percent less than the regional property crime rate of 3613.6 and 19.8 percent less than the U.S. rate of 4492.1.

Iowa's reported murder rate in 1984 was one of the ten lowest in the nation. As in prior years, the state had a murder rate of 2.0 offenses per 100,000 population which gave Iowa a ranking of 45th. Iowa's rate was 46 percent less than the regional murder rate of 3.7 and 74.7 percent less than the U.S. murder rate of 7.9 murders per 100,000 estimated population.

For the second year in a row, Iowa had the lowest reported rape rate in the nation. Its reported rape rate of 12.9 was 44.6 percent less than the regional rate of 23.3 and 63.9 percent less than the U.S. rate of 35.7 rapes per 100,000 population.

During 1984, there was a reported rate of 145.5 aggravated assaults per 100,000 estimated population in Iowa. This rate placed Iowa at 40th among the 50 states and was 49.9 percent less than the U.S. rate of 290.2. The comparable regional rate for 1984 was 184.9, or 27.1 percent more than Iowa's rate.

The 1984 burglary rate of 871.4 for Iowa gave the state a ranking of 38th. Iowa's burglary rate was 7.4 percent less than the regional rate of 940.9 and 25.5 percent less than the U.S. rate of 1263.7.

Iowa's motor vehicle theft rate for 1984 was one of the ten lowest in the nation. With a ranking of 43rd, the reported motor vehicle theft rate in Iowa of 158.4 was 63.8 percent less than the U.S. rate of 437.1 offenses per 100,000 population. The comparable regional rate for motor vehicle theft was 220.4 for 1984.

There is no state ranking available for Iowa's 1984 arson rate. The reported rate of 36.8 arsons per 100,000 population in Iowa was, however, 30.0 percent less than the 1984 U.S. rate of 52.6.

TABLE 3

IOWA-U.S. COMPARISON
TOTAL INDEX CRIME RATE
1974-1984

Year	Iowa	U.S.	Iowa's Rate as % of U.S. Rate
1974	3,413.7	4,850.4	70.4%
1975	3,908.7	5,298.5	73.8%
1976	4,046.2	5,287.3	76.5%
1977	3,867.6	5,077.6	76.2%
1978	3,980.6	5,140.3	77.4%
1979	4,301.2	5,565.5	77.3%
1980	4,728.6	5,950.0	79.5%
1981	4,682.6	5,858.2	79.9%
1982	4,132.4	5,603.6	73.7%

1984	3,799.5	5,031.3	75.5%
% Change, 1974-1984	11.3%	3.7%	
% Change, 1979-1984	- 11.7%	- 9.6%	
% Change 1983-1984	- 2.7%	- 2.8%	

Table 3 and Figure 2 illustrate the trend in total index crime rates for Iowa and the U.S. between 1974 and 1984. Iowa's crime rate has been as low as 70.4% of the U.S. crime rate in 1974 and as high as 79.9% of the U.S. crime rate in 1981. The percentage changes for Iowa and U.S. crime rates show that Iowa has experienced a faster increase in its total index crime rate between 1974 and 1984 than has the U.S. as a whole.

IOWA CRIME RATE

FIGURE 2

The trends in violent crime rates for Iowa and the U.S. are depicted in Table 4 and Figure 3. These illustrate that Iowa's violent crime rate has been much lower than the U.S. violent crime rate between 1974 and 1984. Iowa's rate of violent offenses per estimated 100,000 population has been between 26.2% and 36.9% of the U.S. violent crime rate. Therefore, Iowa's violent crime rate has been less than two-fifths of the U.S. violent crime rate for every year since 1974.

Iowa's violent crime rates as well as other offense rates for the early 1970's should be treated cautiously since this period was characterized by great improvements in police recordkeeping and crime reporting systems. In any event, Iowa's violent crime rate increased 64.2 percent between 1974 1984 whereas the U.S. violent crime rate increased 16.9 percent.

IOWA-U.S. TREND COMPARISON
PROPERTY INDEX CRIME RATE
1974-1984

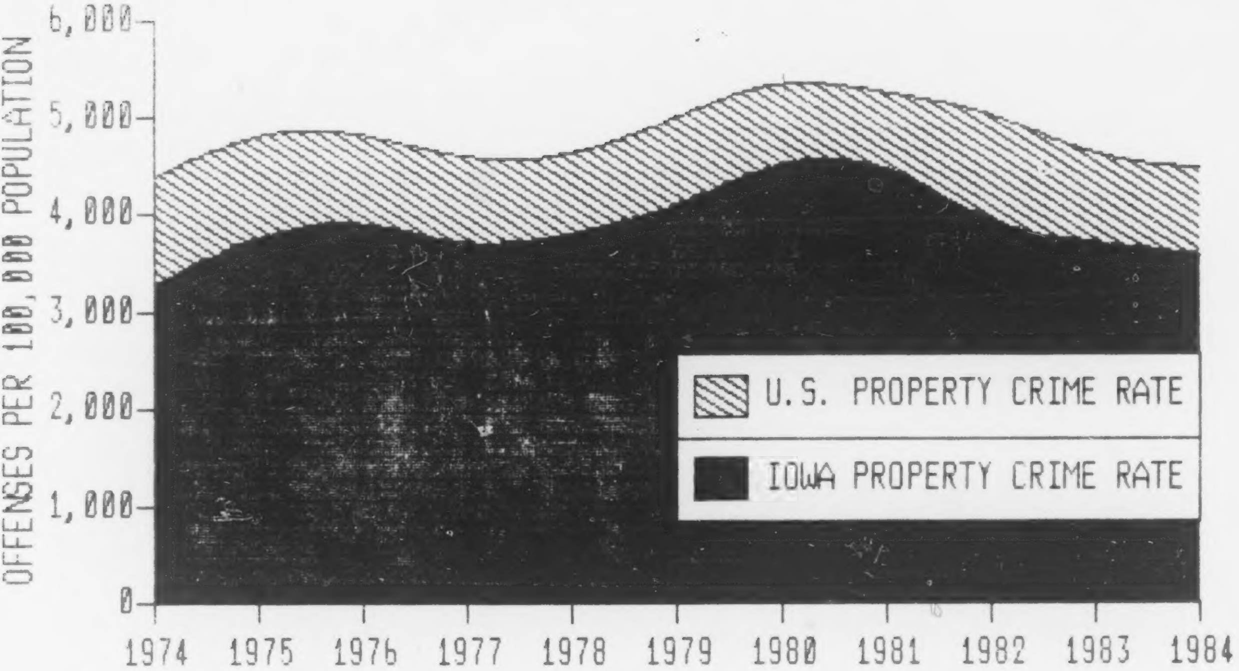

FIGURE 4

Table 6 and Figure 5 compare Iowa's rural Part I crime rates with regional and U.S. rural rates for 1984. The rural index crime total for Iowa in 1984 was 1,263.1, which was slightly less than the regional rate of 1,265.6. The rural crime index rate for the U.S. in 1984 was 1,774.4, or 40.5 percent more than Iowa's rural index rate.

Rural crime rates in Iowa were below the comparable regional rate in every category except larceny. In 1984, the rural larceny rate in Iowa was 786.0 offenses per 100,000 population compared to 729.1 for the region's rural areas. However, the state's larceny rate was 13.2 percent less than than the rural U.S. rate of 905.1

The largest gap between rural crime rates in Iowa and other rural areas was in the category of rape. Iowa's 1984 rate of 1.6 reported rapes per 100,000 estimated population was 56.8 percent less than the regional rate of 3.7 and 90.6 percent less than the U.S. rate of 17.0 for reported rapes.

TABLE 6

IOWA-REGION-U.S. COMPARISON
RURAL AREA CRIME RATES
1984

	Iowa	Region *	U.S.	Iowa Rate as % of Regional Rate	Iowa Rate as % of U.S. Rate

FIGURE 5

Comparisons between the index crime clearance rates in Iowa, the Region, and the U.S. are depicted in Table 7.

TABLE 7

IOWA-REGION-U.S. CLEARANCE RATES
INDEX CRIMES
1984

	Iowa's Clearance Rate	Regional Clearance Rate	U.S. Clearance Rate
Index Total	19.3%	22.2%	21.0%
Property	17.2%	19.7%	17.9%
Violent	55.9%	53.2%	47.4%
Murder	74.6%	77.2%	74.1%
Rape	52.8%	54.7%	53.6%
Robbery	31.1%	28.4%	25.8%
Aggravated Assault	62.4%	63.3%	61.3%
Burglary	13.6%	14.5%	14.5%
Larceny	17.9%	21.4%	19.9%
Motor Veh. Theft	26.5%	22.4%	15.1%
Arson	9.5	22.1%	16.7%

The index total clearance rates for 1984 show that Iowa's rate of 19.3% was lower than the regional and U.S. clearance rates. This is partially due to Iowa's high proportion of property crimes. Property crimes usually have lower clearance rates than violent crimes. Iowa's property clearance rate of 17.2 percent in 1984 was 12.7 percent lower than the regional rate of 19.7 percent and 3.9 percent less than the U.S. clearance rate of 17.9.

In several offense categories, Iowa's clearance rate was better than the regional and U.S. clearance rates. The 1984 clearance rate for violent crime in Iowa was 55.9 percent which was 5.1 percent more than the corresponding regional rate (53.2%) and 17.9 percent more than the U.S. rate (47.4%). Robbery and motor vehicle theft clearance rates in Iowa during 1984 were also higher than those for the region and the U.S.

The Honorable Terry E. Branstad
Governor of Iowa
State Capitol Building
LOCAL

Dear Governor Branstad:

I am pleased to transmit to you the Iowa Uniform Crime Reports, 1985 Annual Release. This report contains statistical information on criminal offenses reported to Iowa's law enforcement agencies during the 1985 calendar year and related matters. It continues a series of reports begun in 1976.

The report is based upon information provided to this Department by Iowa's local law enforcement agencies through the Iowa Uniform Crime Reporting System. As such, it is very much a cooperative effort between state and local agencies.

Very truly yours,

Gene W. Shepard

Gene W. Shepard
Commissioner

PREFACE

This report continues a series which started with the publication of the annual Iowa crime report for 1976 by the Iowa Department of Public Safety. It contains data for 1985 and is the culmination of combined efforts of the Research and Development Bureau, the Field Services Bureau, and the Data Services Bureau of the Iowa Department of Public Safety, the Laboratory for Political Research of the University of Iowa, and especially of Iowa's local law enforcement agencies. All of the state's 99 county sheriffs' offices, 121 municipal police departments, and the security departments of the three state universities contribute to the Iowa Uniform Crime Reporting System as direct reporting agencies. Additionally, all other local enforcement agencies report through their respective county sheriffs' offices.

The Iowa Department of Public Safety gratefully acknowledges the participation of the state's local law enforcement agencies in the Iowa Uniform Crime Reporting System, for they are clearly the lifeline of that system. Every direct reporting agency in Iowa has transmitted the required information to the Field Services Bureau of this Department for every month since 1977. This is a record matched in few, if any, other states. The Field Services Bureau and the Data Services Bureau are responsible for maintaining and updating the crime reporting system.

Preparation and publication of this report and others containing reported crime information for Iowa are the responsibility of the Department's Research and Development Bureau. Preparation of this report was accomplished through a contract with the University of Iowa.

EXECUTIVE SUMMARY

A review of reported crime figures for Iowa for 1985 shows that some index offenses declined in volume while others increased. The Crime Index was up 2.8 percent from 1984. Four of the seven index offenses showed increases during 1985: robbery, aggravated assault, burglary, and larceny. The other three index offenses (murder, rape, and motor vehicle theft) decreased in frequency between 1984 and 1985. Reported violent index crime (murder, rape, robbery, and aggravated assault) rose 5.6 percent while reported property index crime (burglary, larceny, and motor vehicle theft) increased 2.7 percent. In contrast, arson, which is not included in the crime index, decreased.

More specifically, robbery and aggravated assault had the largest percentage increases during 1985. There were 6.3 percent more assaults in 1985 than in 1984. Reported robberies rose by 6.6 percent from 1984 to 1985. Burglaries and larcenies increased by 3.9 and 2.7 percent respectively.

A decline of 9.3 percent occurred in reported murders from 1984 to 1985. Rape declined by 2.6 percent, and motor vehicle thefts by 4.1 percent. The biggest decrease came in arson, which declined by 15.6 percent from 1984 to 1985.

INTRODUCTION

Background

In 1974, the 65th Iowa General Assembly enacted into law Chapter 749B of the Iowa Code requiring law enforcement agencies to submit reports of crime and arrests to the Bureau of Criminal Investigation. The following is a reprint of a portion of this law (now Section 692.15) concerning Uniform Crime Reports.

> When it comes to the attention of a sheriff, police department or other law enforcement agency that a public offense has been committed in its jurisdiction, it shall be the duty of the law enforcement agency to report information concerning such crimes to the bureau on a form to be furnished by the bureau not more than thirty-five days from the time the crime first comes to the attention of such law enforcement agency. These reports shall be used to generate crime statistics. The bureau shall submit statistics to the governor, legislature, and crime commission on a quarterly and yearly basis.

During December, 1974, the Iowa Bureau of Criminal Investigation, assisted by the Federal Bureau of Investigation, conducted schools throughout the State in the proper completion of Uniform Crime Reports. The schools were attended by most of the law enforcement agencies that were to contribute Uniform Crime Reports. On January 1, 1975, the Iowa Uniform Crime Reporting Program was implemented, with forms being sent to 210 agencies. Forms provided by the Federal Bureau of Investigation were used in implementing this program since most contributing agencies had previously submitted these forms to the FBI. Monthly reports were received from 209 agencies throughout 1975 and 1976. In 1977, the number of agencies submitting reports grew to 220, which remained the case in 1978. In 1979, the number of reporting agencies rose to 223, and in 1980, to 225. The number of reporting agencies was reduced to 223 in 1981. All reporting agencies have submitted data for every month since 1977.

In 1977 the responsibility for Uniform Crime Reports was transferred from the Bureau of Criminal Investigaton to the Department of Public Safety´s Administrative Services Division (which maintains UCR field personnel, receives raw data from contributing agencies, and performs computer analysis of data) and the Research and Development Bureau (which further analyzes data, prepares the quarterly and annual reports, and responds to information requests). Questions concerning this report or addressing the topic of crime in Iowa should be addressed to the latter. The Department of Public Safety welcomes comments and suggests regarding this report.

Method of Reporting

Iowa sheriffs´ offices and police departments each month report the offenses, arrests, and clearances known to them within their jurisdictions. Crimes handled by State and Federal agencies are reported by the local jurisdictions in which the crimes have occurred. County sheriffs report activity occurring outside the jurisdictions of direct contributing police departments. With few exceptions, those police departments which contribute directly are in communities have populations of 2,500 or greater. The number of direct reporting agencies in each category is as follows:

Number of Reporting Agencies by Type, 1985

Agency	Number
Sheriff's Offices	99
Police Departments	121
Regents' Universities	3
Total Direct Reporting Agencies	223

Offense Classifications

The Iowa Department of Public Safety forwards Iowa crime figures to the Federal Bureau of Investigation for development of nationwide statistics. Because the national program receives reports from law enforcement agencies throughout the nation, uniformity of classification and reporting procedures is necessary to overcome variations in the definitions of criminal offenses among states. For this reason, UCR definitions do not conform to the definitions set forth in the Code of Iowa. It should be noted that the Iowa Uniform Crime Reporting System does provide for the collection of more detailed information in certain areas of particular interest to Iowa, particularly farm-related theft, than is true of the national system.

Information contained in the Uniform Crime Reports is divided between Part I and Part II Crimes. Part I Crimes are generally those offenses that are considered most serious in nature, occur with greatest regularity, and are most frequently reported to law enforcement agencies. These crimes make up a "crime index," the bellweather of crime trends. The Crime Index includes all Part I crimes reported to law enforcement agencies, not the actual number of offenses occurring, nor the number of arrests being made. Also, arson is not included in the index. For the purpose of analysis, Part I Crimes are divided into violent and property crimes:

Violent Crimes

Murder - the willful, non-negligent killing of one human being by another.

Forcible Rape - the carnal knowledge or attempted carnal knowledge of a female forcibly against her will.

Robbery - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by violence or by putting the victim in fear.

Aggravated Assault - an unlawful attack or attempt by one person upon another for the purpose of inflicting severe or aggravated bodily injury.

Property Crimes

Burglary - Breaking or Entering - the unlawful entry or attempted entry of a structure to commit a felony or a larceny.

Larceny (except motor vehicle thefts) - the unlawful taking of property from the possession or constructive possession of another.

Motor Vehicle Theft - the theft or attempted theft of a motor vehicle. Farm equipment, construction equipment, boats, and airplanes are specifically excluded from this category and are included under larceny.

Arson - the willful or malicious destruction or attempted destruction of property by fire.

In 1979, Congress mandated that arson become the eighth index offense, thus making arson a Part I crime instead of a Part II crime. To include arson in Iowa's crime index, however, would invalidate the comparison of index crime over time. Therefore, figures for index crime in Iowa include murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft, but not arson. Reported arson offenses are compiled separately from the index (see Table 10).

In order to maintain comparability with prior years, arson arrests continue to be included in the Part II category.

Part II crimes are all those not included in the Part I category. Part II crimes include offenses such as simple assault, vandalism, prostitution and offenses against the family and children. There is no "index" for Part II crimes which are reported to law enforcement agencies in the UCR system. Arrests for Part II crimes are included, however, in the UCR system, as are Part I offenses. The narrative portion of this report concentrates on reported Part I crimes.

Organization and Methodology of 1985 Report

Part I of this report contains information on trends in reported crime in Iowa since 1980 and analyses of statewide patterns of reported Part I offenses during 1985. Each of the eight index offenses (murder, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson) is depicted in this report by two trend charts. One chart shows the annual volume of each offense between 1980 and 1985. A second chart depicts the annual rate for the offense for the same period. Rates based on offenses reported per 100,000 estimated population can be more reliable trend indicators than are raw totals since population shifts are considered. The 1985 population of Iowa and its reporting jurisdictions are based on U.S. Bureau of the Census estimates provided by the FBI to the Iowa Department of Public Safety.

Part II of this report is a reproduction of a computer printout produced by the Data Services Bureau of the Iowa Department of Public Safety. This section contains compilations of raw data, in tabular form, which have been transmitted to the Iowa Uniform Crime Reporting System by local law enforcement agencies during 1985.

The 223 contributing agencies submit monthly crime reports to the Department of Public Safety usually within ten days of the end of the month. In instances in which incomplete or erroneous reports are received, corrected reports are normally submitted within one additional month. The Field Services Bureau monitors agency submissions and has exerted considerable effort to achieve 100 percent reporting in every year since 1977.

Since the bulk of this report is made up of charts and tables, considerable effort has been made to make these presentations understandable, logical in format, and useful to local law enforcement officials and other interested parties. Comments regarding the utility of these presentations are welcome.

Due to rounding, not all percentages add up to 100 percent in each figure. In addition, most offense rates have been rounded to the nearest tenth.

To assist understanding of some of the tables shown here, the following definitions are presented:

Metropolitan Statistical Areas (MSAs) - areas including a core city (or urbanized area) of at least 50,000 population and frequently including smaller surrounding jurisdictions.

Suburban Cities - cities of less than 50,000 population in Metropolitan Statistical Areas, other than Iowa City, which is the core city of the Johnson County MSA.

Suburban Areas - all jurisdictions (including the sheriff) within an MSA with the exception of the core city.

Rural Areas - those areas in non-MSA counties which are served by the county sheriff or other agencies which do not report directly to the Uniform Crime Reporting System.

Suburban Sheriffs - county sheriffs in MSA counties.

Non-Suburban Cities - all cities outside of MSAs.

University Police - campus security departments of the Regents universities.

Uses and Limitations of the Uniform Crime Reporting System

The UCR system has been developed to serve as a tool to assist jurisdictions in obtaining comparable information which can assist in the allocation of personnel, budgeting, deployment of resources, and the like. Under ideal circumstances, the system can be of great benefit to criminal justice agencies, other public and private agencies, and to interested citizens.

Nevertheless, caution should be exercised in making direct comparisons of crime, arrest, and clearance data for different law enforcement agencies. Uniform crime reports should not be taken as a sole indicator, but used in conjunction with other data to better understand crime patterns. Index offense totals, for example, are reported crimes which relate to events while arrests relate to persons. A single reported offense may involve several crimes, several offenders, and several victims. Many arrests may involve only one such offense, while others result in a clearing of multiple offenses. An offense is "cleared" by the arrest of at least one person, or by exceptional means (suicide, or offender killed by police or citizen, etc.). Arrests must generally be accompanied by an offense charge and the offender(s) must be turned over to the courts for prosecution in order to count as a clearance.

In addition, statistics on reported crime do not distinguish between crimes committed by non-residents and residents in a particular jurisdiction. Listed below are some additional conditions which can affect data on reported crimes, arrests, and clearances in different areas.

1. Density of population and geographic size of community.
2. Composition of the population with particular reference to sex, age, and race.
3. Economic status of the population.
4. Mobility of the population.
5. Climate.
6. Educational, recreational, and religious characteristics.
7. Policies, effective strength, and standards governing appointment to law enforcement agencies.
8. Policies of the prosecuting officials, courts, and correctional agencies.
9. Public awareness of crime and concern about it.
10. Attitudes of the public toward crime and law enforcement agencies.
11. The degree to which law enforcement agencies adhere to crime reporting standards.

Limitations of the Uniform Crime Reporting System have been debated extensively. Relying primarily on the reports of citizens, the figures included in Uniform Crime Reports reflect wide variations in the tendency of citizens to report crimes. Citizens may not report all crimes to law enforcement agencies, believing that there is nothing the police can do, fearing retaliation from offenders or wishing to avoid any involvement with the criminal justice system.

The degree to which crimes are reported by citizens varies considerably from offense to offense and from area to area. Based on victimization survey studies completed in metropolitan areas and nationwide, the percentage of actual crimes reported to law enforcement agencies is related to such factors as:

1. the seriousness of the crime and/or value of goods lost;
2. the victim's perception of the likelihood of apprehending the suspect;
3. the presence or absence of insurance on the stolen property.

Data from victimization surveys indicate that reporting rates may be as low as one in five for some crimes (e.g., larceny). Thus, the Uniform Crime Reports do not contain a complete accounting of crime within jurisdictions. However, the UCR system constitutes the best network of state and national crime figures currently available. Victimization survey data also indicate higher reporting rates for offenses other than larceny, although many offenses in each category apparently do not come to the attention of law enforcement agencies.

Inconsistent record-keeping procedures have contributed to the inaccuracy of uniform crime reporting in past years. Within the past decade, however, there have been dramatic improvements in law enforcement records management and reporting systems. These changes have probably had a considerable effect on the amount of crime reported within some jurisdictions. Major metropolitan areas have been in the forefront of this improvement with the procurement of sophisticated computer systems to record and keep track of reported crimes. Since the development of the Iowa UCR system, however, the most notable changes have occurred in some of the smaller jurisdictions, particularly in rural areas.

Although conclusive information on the subject is not available, it is possible that at least a portion of the increase in crime reported during past years is due to improvements in record-keeping, particularly in the rural areas. Further, because these rural jurisdictions started with low levels of crime--both in raw numbers and rate per capita--large percentage increases can take place without great numerical increases.

Changes in crime rates can also be affected by fluctuations which may be due to probability. Statistical theory indicates that the smaller the number in a sample--e.g., the smaller the number of reported crimes in a jurisdiction in a given year--the more susceptible the rate is to relatively great variation in mean (average) and standard deviation. What this means, in lay terms, is that the reported crimes in smaller jurisdictions will vary more from year to year--without necessarily indicating a trend--than will reported crime in larger jurisdictions experiencing more crime.

PART I

1980 - 1985 TRENDS

1985 PATTERNS

PART I

1980 - 1985 TRENDS

1985 PATTERNS

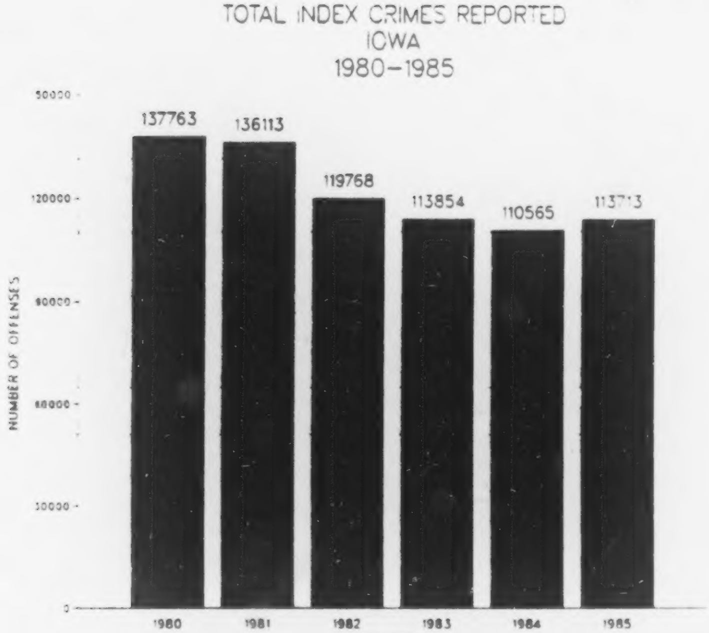
I. INDEX CRIME TOTALS AND RATES

Iowa experienced an increase in the number of index crimes reported to law enforcement agencies in 1985, for the first year since 1980. The 1985 total of 113,713 index crimes reported to Iowa's law enforcement agencies represented an increase of 2.8 percent from the 1984 total of 110,565 reported offenses. Figure 1 illustrates the trend in the annual total of reported index offenses for the state from 1980 through 1985. The 1985 total (113,713) was 17.5 percent lower than the peak annual total during this period of 137,763 index crimes reported to law enforcement agencies in 1980.

Figure 2 presents the annual rates (offenses per 100,000 population) of index crimes reported in Iowa during the years 1980 through 1985. As with the numbers of reported offenses, the index crime rate for the state had declined in each of the past four years. In 1985, however, there were 3,943 index crimes reported to Iowa law enforcement agencies per 100,000 persons in the estimated population of the state, which was 3.8 percent higher than the 1984 rate of 3,799 and 16.6 percent lower than the 1980 peak annual rate of 4,729.

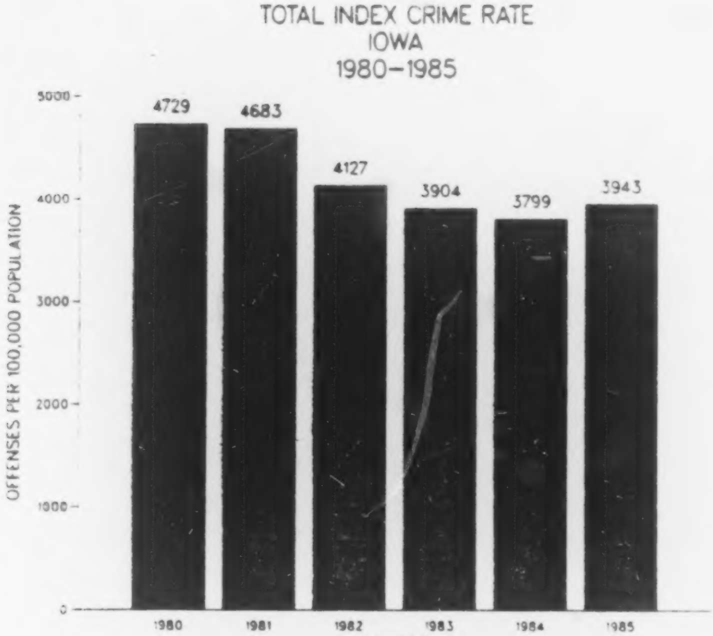
The distribution of index crimes recorded in 1985 in Iowa by individual offense categories is shown in Figure 3. In 1985, 5 percent of the index crimes reported statewide were in the violent categories of murder, rape, robbery, and aggravated assault, while 95 percent were in the three property crime categories of burglary, larceny, and motor vehicle theft.

The percent of 1985 index crimes which belonged to the violent categories (5.0) was slightly lower than the comparable 1984



TOTAL INDEX CRIMES REPORTED
IOWA
1980–1985

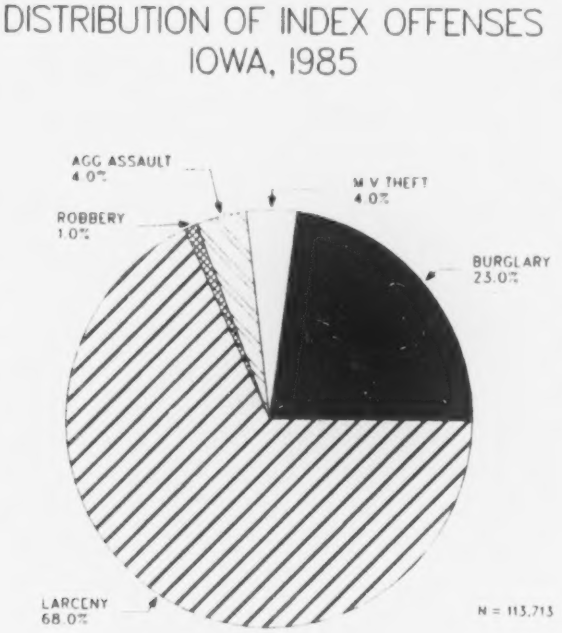
FIGURE 1



TOTAL INDEX CRIME RATE
IOWA
1980–1985

FIGURE 2

percentage (5.2). Larceny, however, remained similar to the pattern for 1983 and 1984 and accounted for almost 68 percent of Iowa's 1985 reported crime index. Burglary had the second largest percentage of the index crimes reported in 1985 with 23 percent.



DISTRIBUTION OF INDEX OFFENSES
IOWA, 1985

FIGURE 3

II. REPORTED VIOLENT CRIME

Figure 4 shows the trend in reported violent index offenses between 1980 and 1985 in Iowa. The 6,106 reported offenses recorded in 1985 represented an increase of 5.6 percent from the corresponding 1984 figure of 5,781 offenses. The 1985 count was 3.5 percent more than the previous peak annual figure of 5,901 violent index offenses recorded in 1981.

Violent crime rates for the years from 1980 through 1985 are illustrated in Figure 5. This trend parallels that for reported violent crime totals shown in the previous figure. There was a 6.4 percent increase in Iowa's violent crime rate between 1984 and 1985. Iowa's violent crime rate in 1985 was 5.9 percent higher than the 1980 rate.

III. REPORTED PROPERTY CRIME

Annual figures for reported property crime in Iowa for the years 1980 through 1985 are represented in Figure 6. The figure of 107,607 reported property crimes in 1985 was 2.7 percent higher than the number reported for 1984 (104,784). Figure 6 shows that the property crime index decreased for four consecutive years from the 1980 figure of 131,941 reported crimes, before increasing again in 1985.

Property crime rates are depicted in Figure 7 for the years 1980 through 1985. The 1985 rate of 3,732 reported property crimes per 100,000 population was 3.6 percent higher than the 1984 rate of 3,601, and 17.6 percent lower than the peak annual rate during this period (4,529 offenses per 100,000 population in 1980).

1980–1985

FIGURE 5

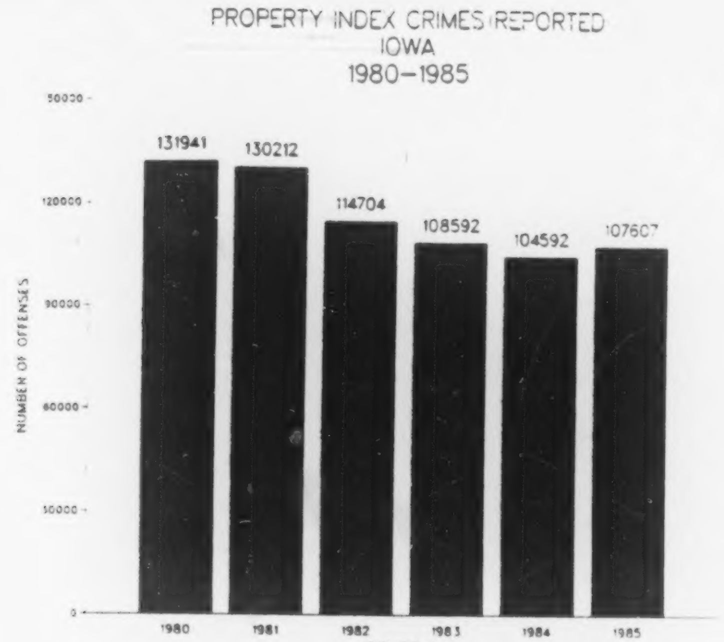

FIGURE 6

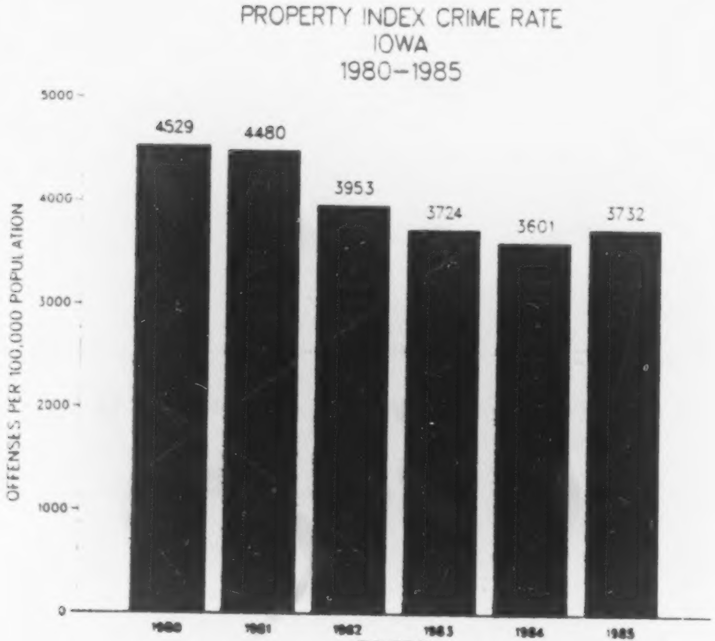

FIGURE 7

IV. VALUE OF PROPERTY REPORTED STOLEN AND RECOVERED

The estimated value of property reported stolen in Iowa during 1985 was $45,373,634. Of this total, about 13.2 million dollars ($13,173,238), or 29.0 percent, was reported as having been recovered. The value of property reported stolen in the state during 1985 was 2.3 percent higher than the 1984 total of $44,336,379.

Figure 8 shows a breakdown of the estimated dollar value of property reported stolen in Iowa during 1985. As in all prior years for which these data have been collected for Iowa, stolen motor vehicles made up the largest single category, other than "miscellaneous." Stolen vehicles accounted for 11.8 million dollars of estimated value in 1985. The motor vehicle category of stolen property also had the highest recovery rate, 77.9 percent, or almost 9.3 million dollars worth.

Since 1979, the Iowa Uniform Crime Reporting System has provided for the collection of detailed information on farm-related theft. While this category accounted for only 5.0 percent of the total dollar value of property reported stolen in 1985, its significance to Iowa is enhanced by the central role of agriculture in the economy of the state. Of the $2,392,310 worth of property stolen in farm-related thefts during 1985, $705,099 worth was livestock. This was nearly a thirty one percent decrease in the dollar value of total livestock stolen over 1984 when 1.2 million dollars worth ($1,192,189) of livestock was reported stolen. Overall, the value of farm related stolen property decreased from $2,637,711 in 1984 to $2,392,310 in 1985, a drop of 9.3 percent.

V. INDIVIDUAL INDEX OFFENSE CATEGORIES

A. MURDER

Figure 10 shows the number of murders recorded in Iowa each year from 1980 through 1985. There were 55 murders in 1985, the lowest recorded number of murders between 1980 and 1985. The highest recorded number for this period was 75 murders in 1981. Identifying a trend in these figures is difficult because of the relatively small numbers involved. The 55 murders recorded in 1985 represented a decrease of nine percent from the 1984 total of 59. The 1985 figure was also fifteen percent less than the number occurring in 1979 (65) and twenty-six percent less than the 1981 peak annual figure.

Iowa's murder rate for the years 1980 through 1985 is illustrated in Figure 11. Parallel to the low number of recorded murders in 1985, the murder rate of 1.9 for 1985 represented the lowest murder rate for the period shown. The 1985 murder rate was five percent less than the 1984 rate of 2.0. The peak annual murder rate between 1980 and 1985 was the 1981 rate of 2.6 offenses per 100,000 estimated population.

Substantial information concerning the characteristics of murderers and their victims is manually tabulated from Supplemental Homicide Report forms submitted by local reporting jurisdictions. Breakdowns of these characteristics are illustrated in Figures 12 through 22.

Figure 12 shows the ages of murder victims during 1985. Fifteen (27.3 percent) of the 55 victims were between the ages of 16 and 25, which is only slightly less than the corresponding figure in 1984, when

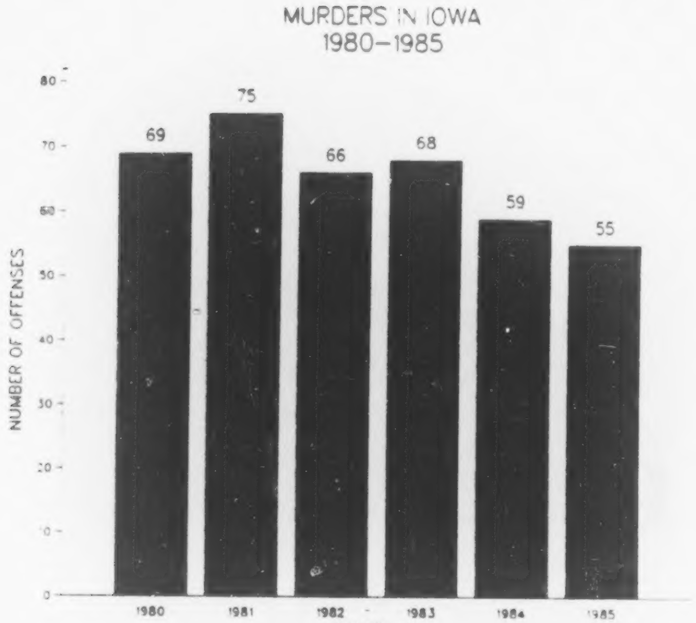

FIGURE 10

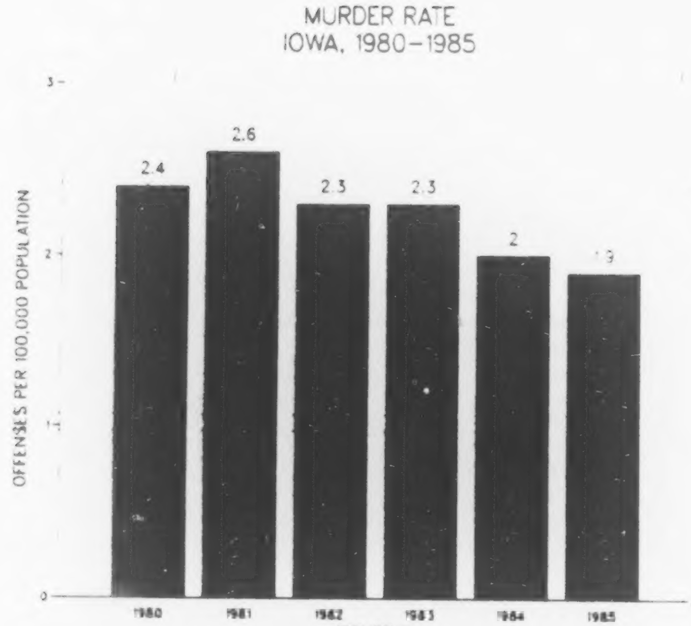

FIGURE 11

MURDER: AGES OF VICTIMS
IOWA, 1985

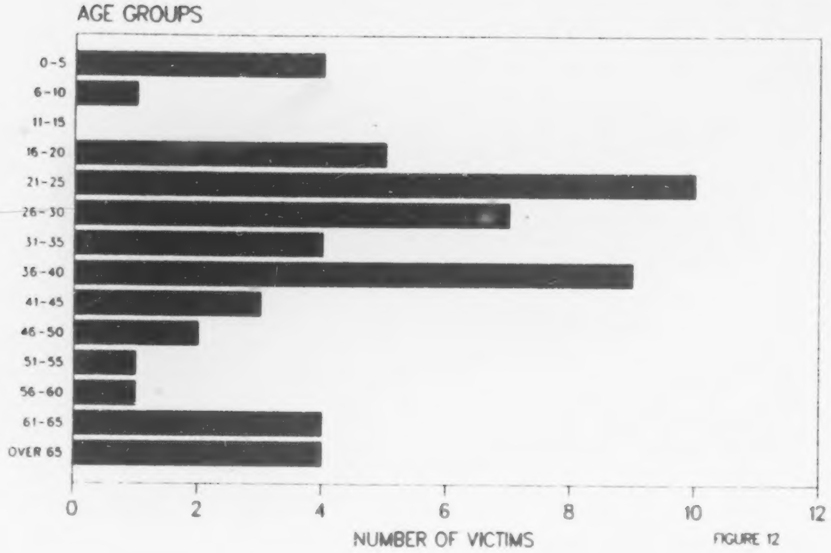

FIGURE 12

MURDER: SEX OF VICTIM
IOWA, 1985

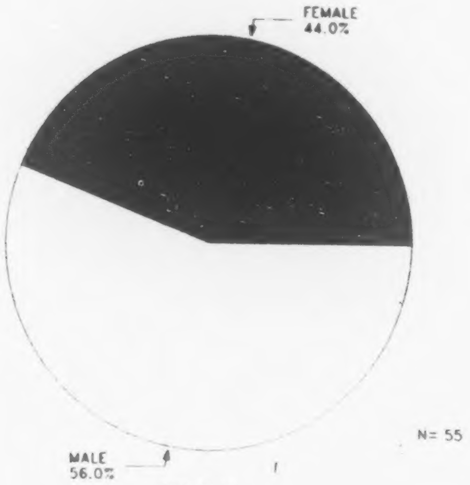

FIGURE 13

seventeen (29.3 percent) out of 59 murder victims were between the ages of 16 and 25. Sixty-four percent (35) of the 55 victims with known ages were between the ages of 16 and 40. Twelve, or 22 percent, of the 55 victims were 46 years or age or over. In 1984, 18, or 31.0 percent, of the 59 murder victims were over forty-six years of age.

The sex of murder victims in 1985 is depicted in Figure 13. Thirty-one of the 55 victims (56 percent) were males. Forty-four percent, or 24, of the victims in 1985 were female, which represents stability from one year to the next in the proportion of female murder victims. In 1984, the proportion of female murder victims was also 44 percent (26 out of 59).

The racial distribution of the 55 murder victims recorded in Iowa in 1985 is illustrated in Figure 14. Forty-nine of the victims (89 percent) were white. Five (9 percent) were black. There was one victim who was of Asian or Pacific Islander origin. In 1984, 15 percent (9 out of 59) of the victims were black and 80 percent (47 out 59) were white. The number of black murder victims in 1985 was 45 percent less than the comparable figure for 1984.

Forty-four murderers were identified by Iowa law enforcement agencies in 1985. In eight situations, the identity of the murderers was unknown. The next few charts present a summary of what is known about them.

Ages of known murderers are represented in Figure 15 for 1985. Thirty-six percent of the identified murderers were between the ages of sixteen and twenty-five.

MURDER: RACE OF VICTIM
IOWA, 1985

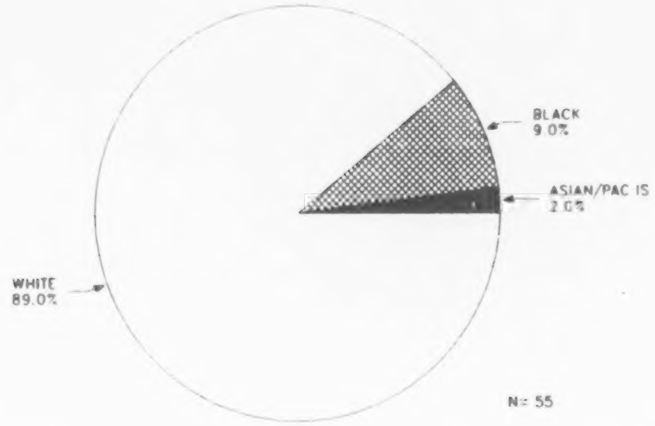

FIGURE 14

MURDER: AGES OF OFFENDERS
IOWA, 1985

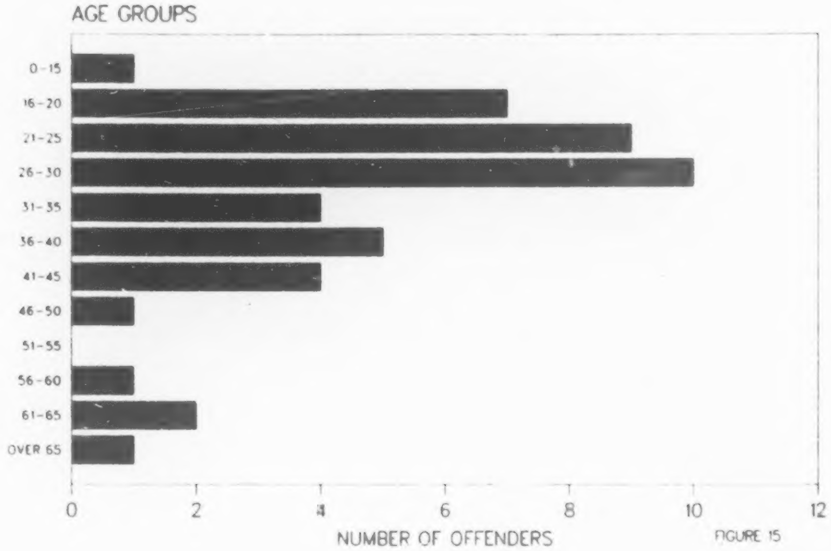

FIGURE 15

Figure 16 depicts the gender of known murderers in 1985. Seven of the forty-four known offenders were females (16 percent). In 1984, 17 percent of known offenders were females. A breakdown by race of the identified murderers for 1985 is shown in Figure 17. In 1985, 8 (18 percent) of the 44 known Iowa murder offenders were black; in 1984, 5 (11 percent) of the 47 known murderers were black. None of the known offenders in 1984 or 1985 was either a Native American or of Pacific Islander origin.

Data on relationships between murderers and their victims is shown in Figure 18. Seventy-one percent of the 55 identified relationships involved prior acquaintance between the victim and the offender. Family relationships were identified 31 percent of the time in 1985. In 1984, family relationships accounted for 39 percent of the relationships.

The 51 murder situations reported in Iowa during 1985 are depicted in Figure 19. Seventy-two percent (34 out of 51) of the murder incidents involved a single victim and a single offender, which is a slight increase over 1984, when 71 percent of the murder situations involved a single victim and a single offender.

Weapons usage in Iowa homicides during 1985 is illustrated in Figure 20. All of the 55 murder weapons were identified. Handguns were used in 36 percent of the murders recorded in 1985, compared to 31 percent in 1984. Other firearms, including ones which were not specifically identified, were used in another 24 percent (13 out of 55) of the known murders. Cutting instruments figured in 20 percent of the murders, which is down somewhat from the 24 percent reported in 1984.

MURDER SITUATIONS
IOWA, 1985

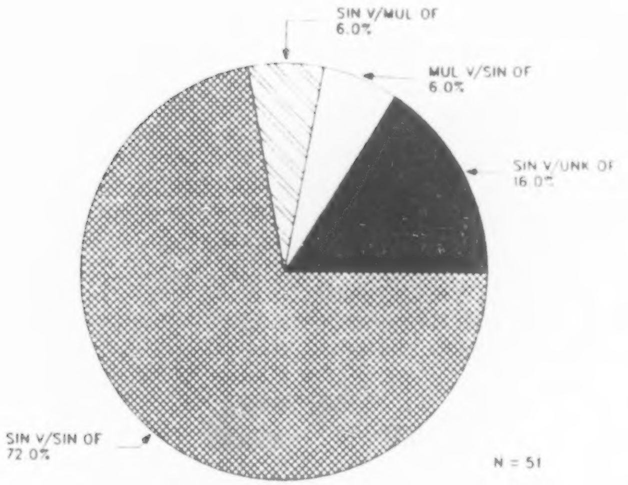

FIGURE 19

MURDER: WEAPONS USED
IOWA, 1985

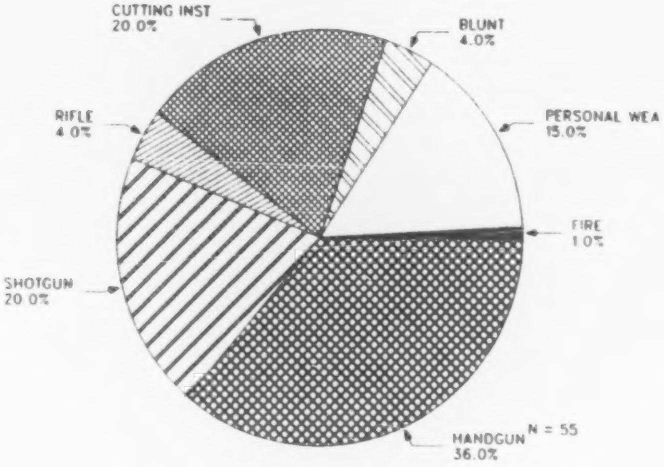

FIGURE 20

Figure 21 depicts the circumstances of homicides recorded in Iowa in 1985. Circumstances involving family members, girlfriends and boyfriends, as well as jealousies, are included in the category labeled "domestic disputes." Twenty-nine percent (16) of the 55 known murders in 1985 stemmed from domestic disputes. The categories of "other felonies" and "unknown" represented 34 percent and 10 percent, respectively, of the circumstances of Iowa murders in 1985.

Data on murder locations during 1985 is shown in Figure 22. Forty-seven percent (26) of the 55 homicides occurred in Iowa's metropolitan areas. Twenty, or 36 percent, of the murders in 1985 took place in rural areas, which is somewhat more than the comparable 1984 figure (31%).

FIGURE 22

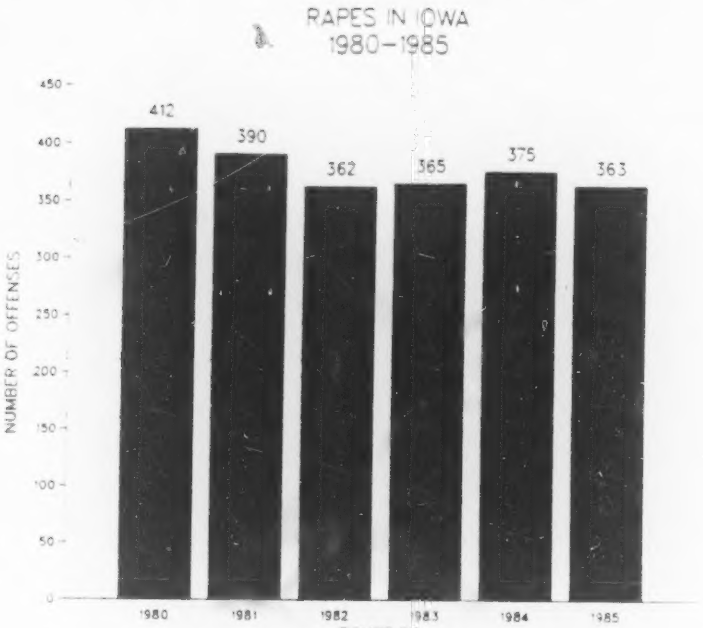

FIGURE 23

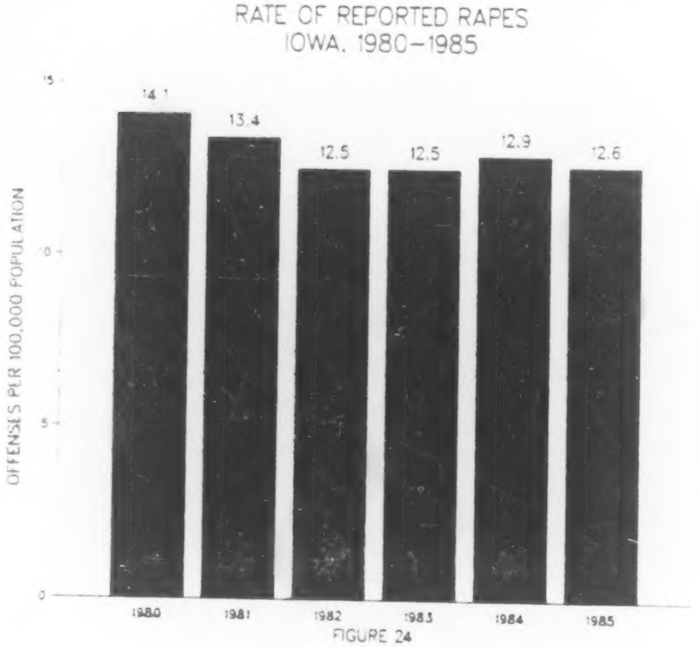

FIGURE 24

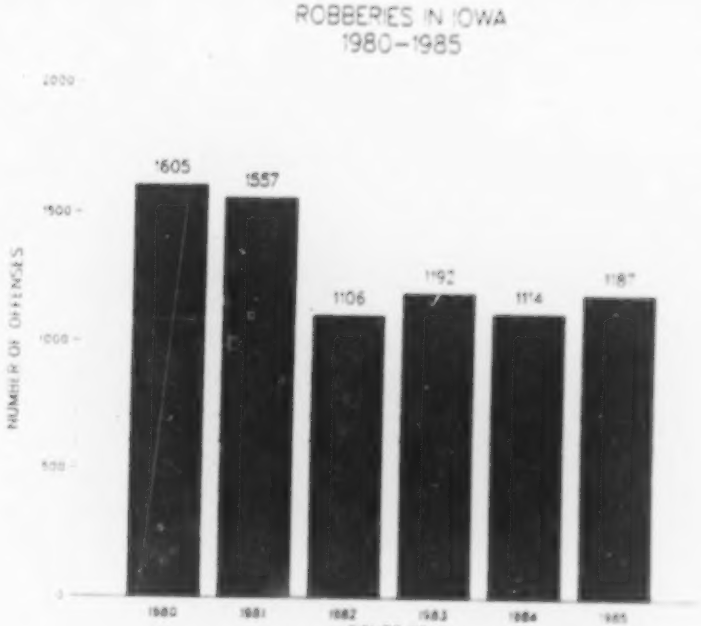
B. RAPE

The trend of rapes reported to Iowa law enforcement agencies from 1980 through 1985 is shown in Figure 23. The 363 forcible rapes reported in Iowa during 1985 represented a decrease of 2.6 percent from the 1984 figure of 375. There were 14.4 percent more rapes recorded in 1985 (363) than there were in 1979 (319). However, the 1985 figure was 11.3 percent lower than the 412 forcible rapes recorded in 1980.

Offense rates for reported rapes in Iowa for the years 1980 through 1985 are shown in Figure 24. In 1985, there were 12.6 rapes reported in Iowa per 100,000 estimated population, a decline of 10.6 percent from the 1980 peak annual rate of 14.1 rapes per 100,000 population in Iowa. Compared to the 1984 rate of 12.9, the 1985 rate (12.6) was 2.4 percent lower.

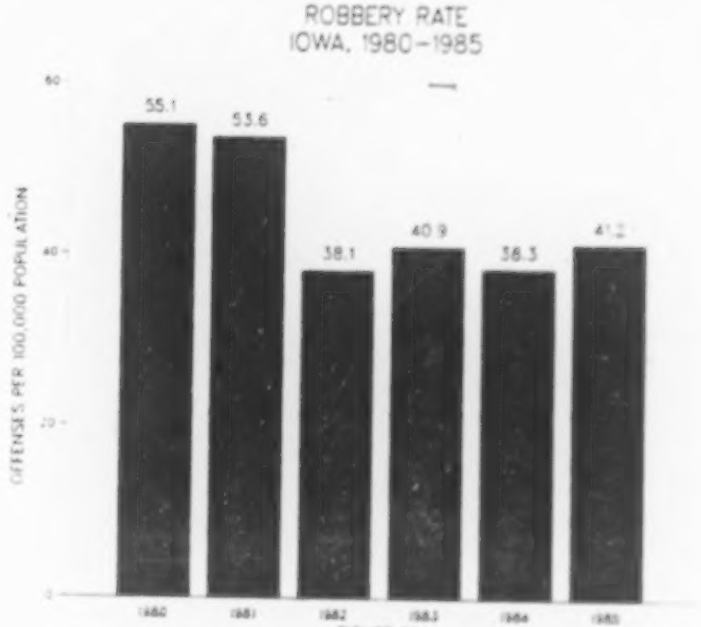
C. ROBBERY

Annual totals of robberies reported to law enforcement agencies from 1980 through 1985 are shown in Figure 25. There were 1,187 robberies reported to Iowa law enforcement agencies in 1985, an increase of 6.6 percent from the 1,114 robberies recorded in Iowa during 1984. The 1985 figure was 25.9 percent less than the 1,605 robberies recorded in Iowa during 1980.



ROBBERIES IN IOWA
1980–1985

FIGURE 25



ROBBERY RATE
IOWA, 1980–1985

FIGURE 26

Iowa robbery rates for the years from 1980 through 1985 are shown in Figure 26. The 1985 rate of 41.2 offenses per 100,000 population was 7.6 percent higher than the 1984 rate of 38.3, and 25.1 percent less than the 1980 rate of 55.1 offenses per 100,000 population.

Figure 27 illustrates weapons use in Iowa robberies in 1985. Of the 1,187 robberies recorded in 1985, 40 percent involved firearms. Knives and other cutting instruments were used in 13 percent of the robberies, while 42 percent of the reported robberies were "strong-arm," that is, committed without the use of a dangerous weapon. The 1985 percentages are similar to those for 1984.

Locations of robberies are depicted in Figure 28. In 1985, highway robberies made up 39 percent of the total, while residences were the target in 14 percent of the robberies.

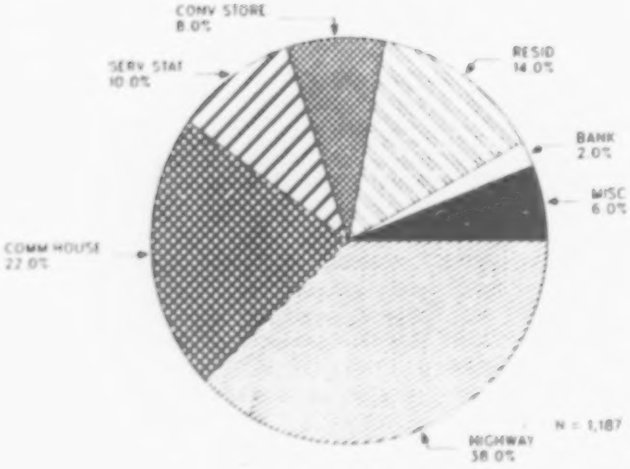

FIGURE 28

D. AGGRAVATED ASSAULT

Annual totals of aggravated assaults reported to Iowa law enforcement agencies are shown in Figure 29 for the years 1980 through 1985. The 1984 total of aggravated assaults had been the sharpest one-year increase in assaults for the entire period shown. In 1985, aggravated assault increased by 6.3 percent, from 4233 in 1984 to 4501 in 1985. The aggravated assault total for 1985 was 20.4 percent higher than the 1980 total. This was the most pronounced of all individual index offense increases which occurred between 1980 and 1984.

Aggravated assault rates for 1980 through 1985 are illustrated in Figure 30. The rate for 1985 was the peak annual total for the period shown. The 1985 rate of 156.1 was 7.3 percent greater than the 1984 rate (145.5) and 21.8 percent higher than the 1980 rate (128.2).

The types of weapons used in aggravated assaults during 1985 is depicted in Figure 31. Personal weapons were used in 52 percent of the aggravated assaults reported in 1985, with firearms being used in 10 percent and cutting instruments in 16 percent of the assaults. The 1985 percentages are similar to those for 1984.

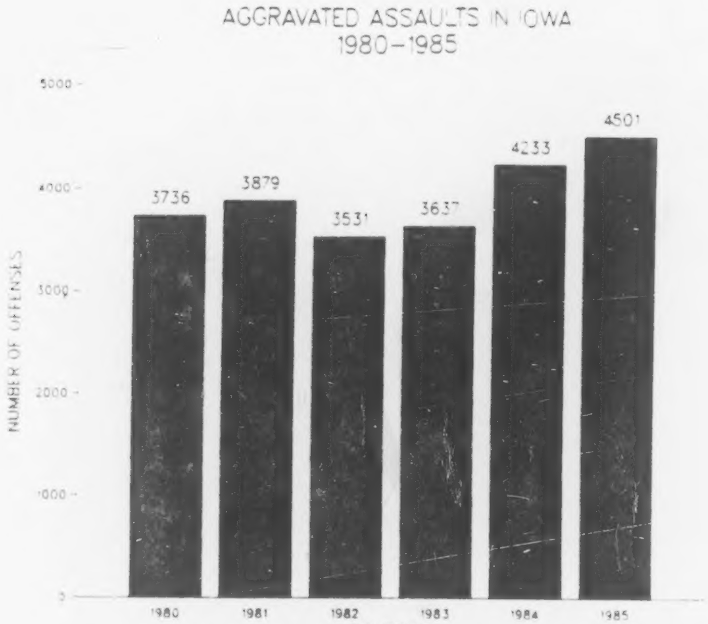

FIGURE 29

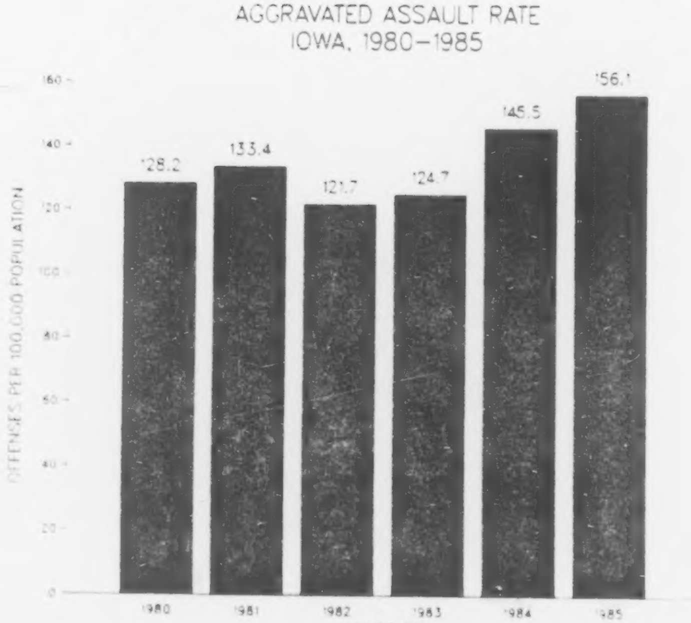

FIGURE 30

AGGRAVATED ASSAULTS: WEAPONS USED
IOWA, 1985

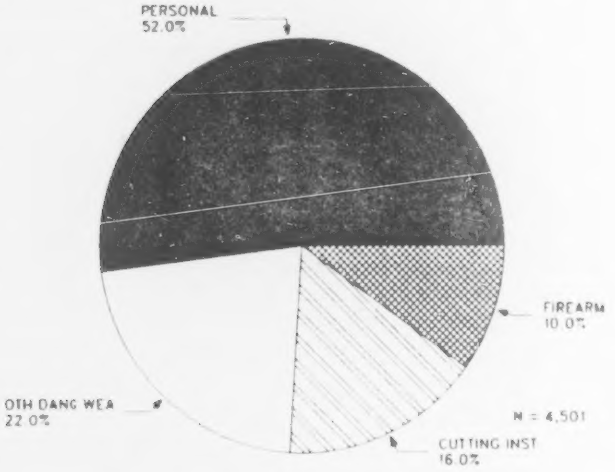

FIGURE 31

E. BURGLARY

Burglaries in Iowa declined for four consecutive years from the 1980 total of 31,342 before increasing in 1985. The 1985 total of 26,349 reported burglaries was 3.9 percent more than the 1984 total of 25,357. Compared to 1980, the 1985 burglary total showed a decrease of 16.3 percent. Reported burglaries in Iowa between 1980 and 1985 are represented in Figure 32.

Iowa's burglary rate for 1980 through 1985 is illustrated in Figure 33. The 1985 rate of 913.8 reported offenses per 100,000 population was 4.9 percent higher than the 1984 rate of 871.4 and 15.0 percent less than the 1980 figure of 1076 reported burglaries per 100,000 estimated population.

The distribution of burglaries by time of day and whether the target was residential or non-residential is shown in Figure 34. Similar to 1984, the largest categories were non-residential nighttime and residential nighttime burglaries.

Types of entry in Iowa burglaries during 1985 are summarized in Figure 35. Nearly seven of every ten reported burglaries involved forcible entry. Also, nearly one-fourth of the reported burglaries required only a non-forcible, although unlawful entry. These percentages are quite similar to ones found for prior years.

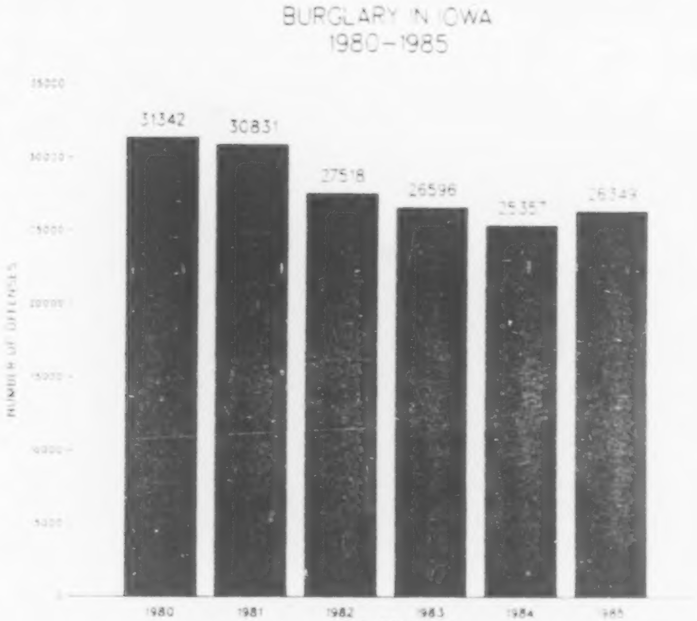

FIGURE 32

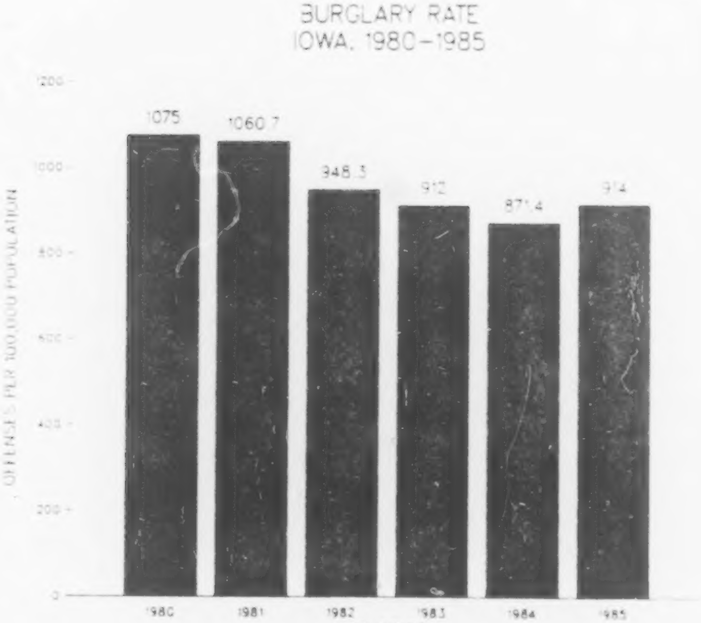

FIGURE 33

DISTRIBUTION OF BURGLARIES
IOWA, 1985

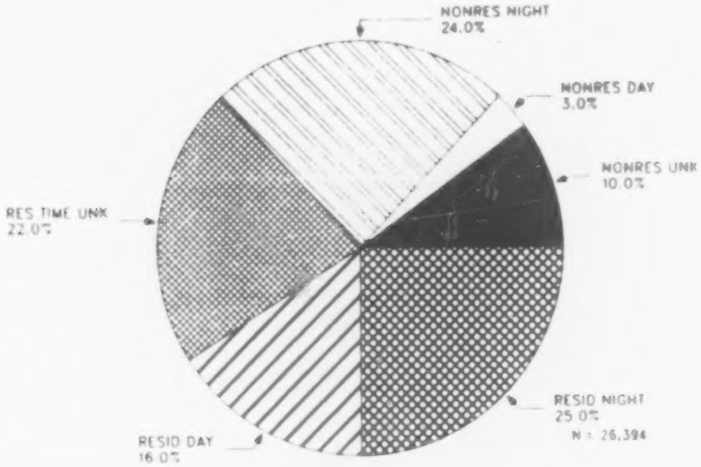

FIGURE 34

BURGLARY: TYPES OF ENTRY
IOWA, 1985

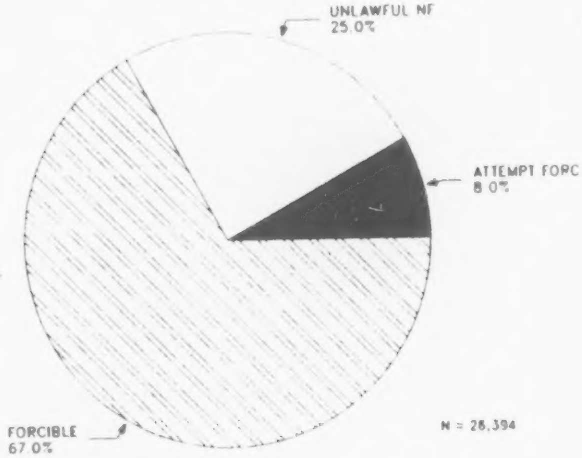

FIGURE 35

F. LARCENY

Reported larcenies in Iowa are represented in Figure 36 for 1980 through 1985. From a peak for this period of 93,421 in 1980, larcenies in Iowa declined for four consecutive years before going up in 1985. The 1985 total of 76,835 was 2.7 percent higher than the 1984 total (74,818) and 17.8 percent less than the 1980 total of 93,421 reported larcenies.

Larceny rates for 1980 through 1985 are shown in Figure 37. The 1985 rate of 2,664.6 reported larcenies per 100,000 population was 3.6 percent higher than the 1984 rate (2,571.1) and 17.0 percent less than the 1980 rate of 3,206.0.

A breakdown of reported larceny by type for 1985 is shown in Figure 38. The residual "other" category was largest--26 percent of all larcenies. Approximately one of every six reported larcenies involved the theft of motor vehicle accessories, and one of every five reported larcenies involved thefts of objects from motor vehicles. The distribution for 1985 was similar to that for 1984.

FIGURE 37

DISTRIBUTION OF LARCENIES
IOWA, 1985

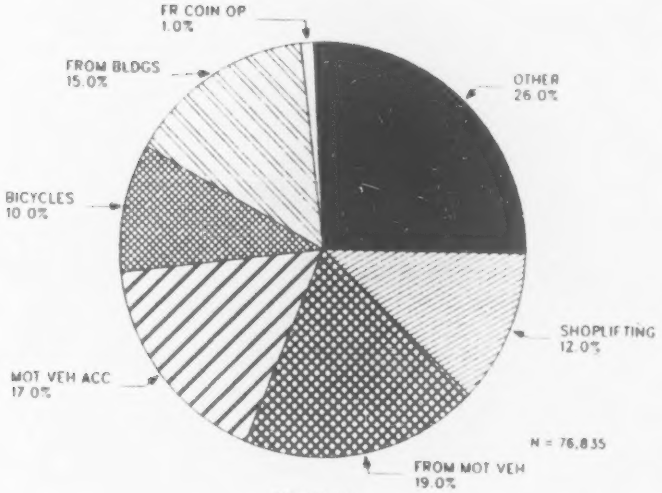

FIGURE 38

MOTOR VEHICLE THEFT IN IOWA
1980–1985

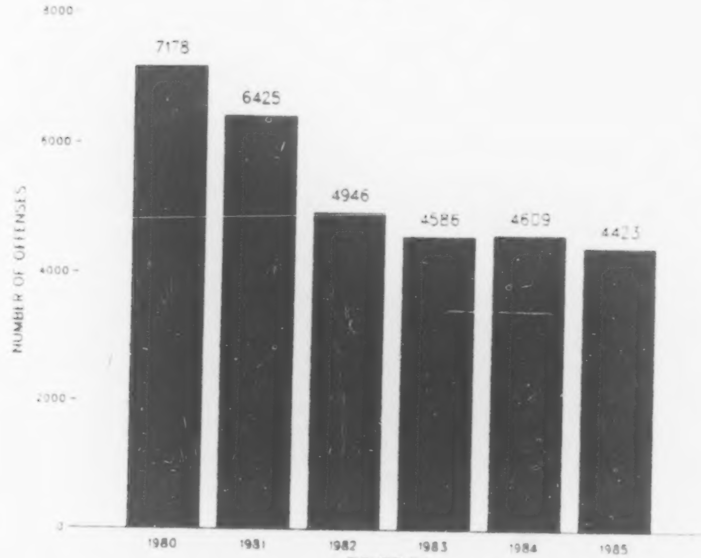

FIGURE 39

G. MOTOR VEHICLE THEFT

Annual totals of reported motor vehicle theft in Iowa for the years 1980 through 1985 are depicted in Figure 39. 1984 was the first year in which the reported number of motor vehicles stolen increased in this period. In 1985, the reported number of motor vehicle thefts decreased 4.1 percent, from 4609 to 4423 reported crimes. The 1985 total of 4423 was 38.4 percent less than the 1980 peak total of 7178 motor vehicle thefts.

Iowa's motor vehicle theft rate for the years from 1980 through 1985 is shown in Figure 40. Parallel to the trend in the number of reported offenses, the 1985 rate of 153.4 thefts per 100,000 estimated population was a decrease after a one-year interruption of a several-year decline. The motor vehicle theft rate for 1985 was 37.8 percent lower than the 1980 rate (246.4); and it was 3.2 percent lower than the 1984 rate (158.4).

The distribution of stolen motor vehicles in Iowa by type is shown for 1985 in Figure 41. Automobiles made up 51 percent of the vehicles reported stolen, while motorcycles accounted for 25 percent of the stolen vehicles. This distribution is almost identifical to that for 1984.

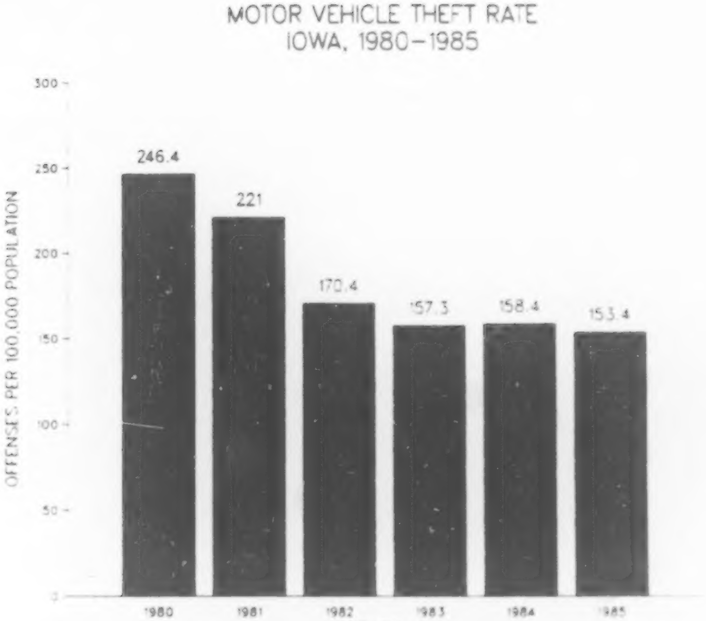

FIGURE 40

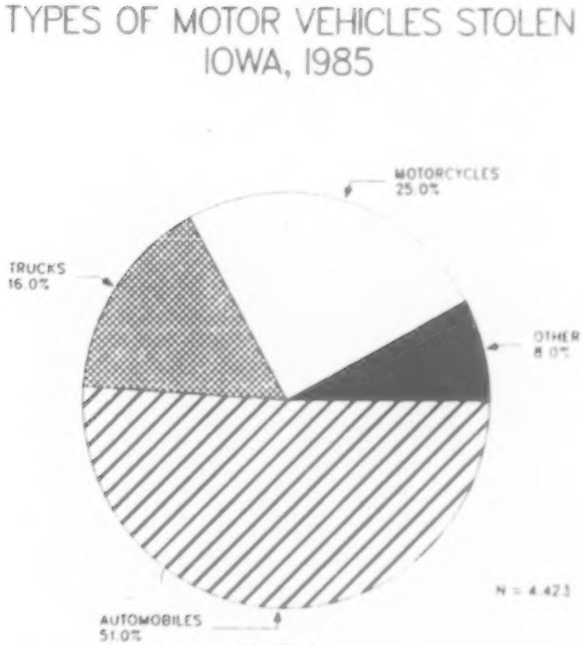

FIGURE 41

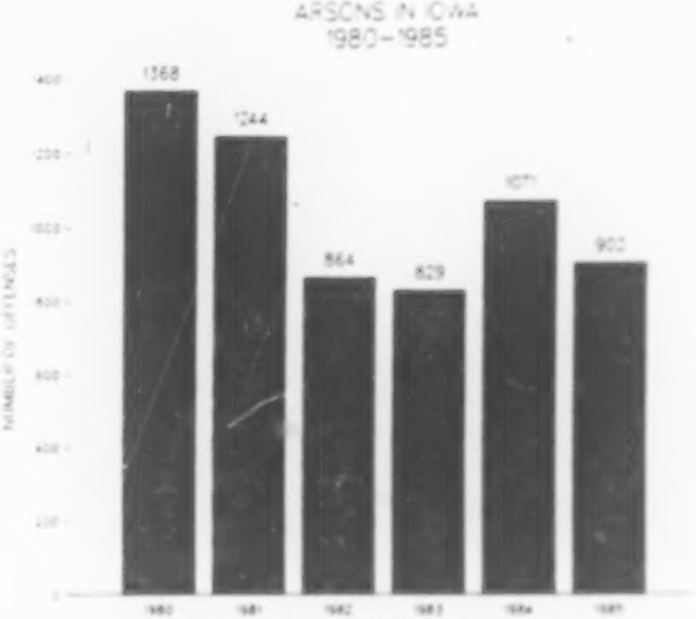
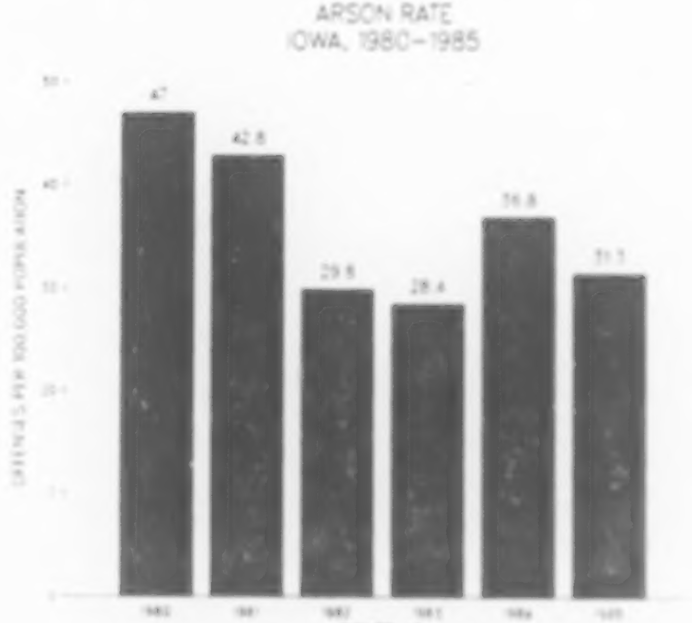


ARSONS IN IOWA
1980–1985

FIGURE 42



ARSON RATE
IOWA, 1980–1985

FIGURE 43

H. ARSON

Arson was added as a reportable offense to the Iowa Uniform Crime Reporting System in 1979. Regular reporting of arson offenses began in 1980. Figure 42 illustrates annual reported arson totals for 1980 through 1985. There were 902 arsons reported in Iowa in 1985, a decrease of 15.6 percent from the 1984 total of 1071. This percentage decrease between 1984 and 1985 was the greatest of all individual index offenses decreases which occurred in 1985. Furthermore, the 1985 total was 34.1 percent lower than the 1980 total of 1,368 reported arsons.

The arson rate for 1985 was 32.0 per 100,000 estimated population. The arson rate for the period 1980 through 1985 is shown in Figure 43.

Despite the 13.1 percent decrease in reported arson in 1985, the total value of arson damage reported for 1985 increased 104 percent over the total in 1984. Property loss damages from arson in 1985 were estimated at $10,904,910, whereas the 1984 figure was $5,342,248 (not shown). In 1984, arson directed at single family residences accounted for $2,136,325 of estimated property losses compared to 1985 when the corresponding value was $4,753,801.

The distribution of reported arsons in 1985 by the type of property involved is shown in Figure 44. Single family residences accounted for the largest number of arsons in any category--26.9 percent. Motor vehicles were the targets in 20.3 percent of the reported arsons in 1985.

* INCLUDES REPORTING POLICE DEPARTMENTS SERVING JURISDICTIONS WITH LESS THAN 50,000 POPULATION AND REPORTING SHERIFFS' OFFICES IN STANDARD METROPOLITAN STATISTICAL AREA COUNTIES (WOODBURY, POTTAWATTAMIE, POLK-WARREN, BLACK HAWK, LINN, DUBUQUE AND SCOTT)

CITIES ARE GROUPED BY POPULATION SIZE CATEGORIES (GROUP A - NOT USED. GROUP B - OVER 50,000. GROUP C - BETWEEN 25,000 AND 50,000. GROUP D - BETWEEN 10,000 AND 25,000. GROUP E - BETWEEN 5,000 AND 10,000. GROUP F - LESS THAN 5,000).

SUBURBAN & NON-SUBURBAN POLICE DEPARTMENTS ALSO INCLUDED IN CITY SIZE GROUPS.

THIS TABLE INCLUDES ONLY THOSE AGENCIES WITH 100% REPORTING.

ACKNOWLEDGEMENTS

Preparation of this report is the responsibility of the Research and Development Bureau, directed by J. Michael Laski. This report was prepared under contract between the Iowa Department of Public Safety and the University of Iowa. Actual preparation of the report was accomplished by Professor Gregory Caldeira. The contract was administered for the Department by Michael R. Coveyou, Research and Statistics Manager.

Data collection for the Uniform Crime Reporting System is the responsibility of the Field Services Bureau, under the direction of K. Lynelle Sanders. Field Services personnel directly involved in crime data collection and data entry for this report have been Pam McDonald and Vicki Rhoads.

Computer processing of the data is undertaken by the Data Services Bureau, directed by Lawrence Grund. Production of printouts for this report has been handled by Dale Aguiar and Clara Gilmore, supervised by Doug Linder.

John Kolp of the Laboratory for Political Research of the University of Iowa provided support in the production of graphics.
